Oregon Public Employees Retirement Fund

Alternatives Portfolio

As of March 31, 2016

($ in millions)

Vintage Year	Partnership	Capital Commitment	Total Capital Contributed	Total Capital Distributed	Fair Market Value	Total Value Multiple [1]	TWRR[2]	IRR[2]

* Alinda Infrastructure Partners II, Sheridan Production Partners I-B and Sheridan Production Partners II-B were initially part of the Opportunity Investment program, until July 1, 2011 when they were transferred to the Alternatives Investment Program.

1 Total Value Multiple is calculated net of recallable return of capital ("ROC"). In practice, both total distributions and contributions are reduced by the amount of recallable ROC in the numerator and denominator of the calculation, respectively.

[2] Investments held less than three years generally have IRRs and TWRRs that are not meaningful, and are therefore labeled NM.

Warning: Due to a number of factors, including most importantly a lack of valuation standards in the alternative asset industry, differences in the pace of investments across investments and the understatement of returns in the early years of an investment's life, the IRR information in this report DOES NOT accurately reflect the current or expected future returns of the investment. The IRRs SHOULD NOT be used to assess the investment success of an opportunity or to compare returns across investments. The IRRs in this report HAVE NOT been approved by the individual general partners or manager of the investment.
