Administrator Alert:
Assisted Living, Residential
Care, and Memory Care
communities

Date: April 8th, 2016
From: Office of Licensing and Regulatory Oversight
Subject: 2016 Survey Process Guide

Summary:

We are proud to announce the 2008 Community Based Care (CBC) Survey Process Guide has been updated and improved. The new 2016 Guide has been adapted to inform an expanded audience including Department of Human Services (DHS) partners, Office of Licensing & Regulatory Oversight, Long Term Care Ombudsman, Aging & People with Disabilities, Licensing Complaint Unit, general public, as well as surveyors and providers.

The purpose of the document is to guide the DHS-CBC surveyor through the process of conducting a resident-centered survey of a residential care or assisted living facility. This Survey Process Guide can also serve as a reference for Community-Based Care facilities.

Below is a link to the document. It is also on the States forms server, and the Community Based Care Web site.
