

12 Weeks to a Safer Medication System: **Week One**

Take A Stand

Support Medication Safety

Medication administration training is critical to assure staff is prepared to administer medications appropriately.

This weeks activity:

- Review your training policy for:
 - ❖ New hires;
 - ❖ On-going training; and
 - ❖ Training efforts after an incident.
- Talk with staff about the importance of on-going training and review expectations.
- Post the DHS - OLRO website and encourage staff to use as a resource.
