Once we received payment for the license and verify your exam scores, your individual landscape construction professional license will be issued.

This license is an annual renewal. Every year you will be required to pay the license renewal fee (currently \$100) if you wish to renew your license. You will be mailed a renewal form approximately 60 days prior to your expiration date.

Are you an employee of a licensed landscape contracting business?

- Complete a verification of employment form. This form can be found on our website in the forms section or can be mailed upon request.

Are you planning on starting a landscape contracting business?

- Complete the landscape contracting business license application. This application can be found in the forms section of our website or can be mailed upon request. Even if you are a one person operation, you are still required to have two licenses (the individual LCP and the business). They are separate legal entities with the agency.
