

BEFORE THE DEPARTMENT OF ADMINISTRATIVE SERVICES,
THE DEPARTMENT OF LAND CONSERVATION AND DEVELOPMENT OF
THE STATE OF OREGON

IN THE MATTER OF THE CLAIM FOR) FINAL ORDER
COMPENSATION UNDER ORS 197.352) CLAIM NO. M118557
(BALLOT MEASURE 37) OF)
Marie and Laura Harry, CLAIMANTS)

Claimants: Marie and Laura Harry (the Claimants)

Property: Tax lot 100, Township 15S, Range 12E, Section 25 Deschutes County
(the Property)

Claim: The demand for compensation and any supporting information received from the
Claimants by the State of Oregon (the Claim).

Claimants submitted the Claim to the State of Oregon under ORS 197.352. Under OAR 125-145-0010 *et seq.*, the Department of Administrative Services (DAS) referred the Claim to the Department of Land Conservation and Development (DLCD) as the regulating entity. This order is based on the record herein, including the Findings and Conclusions set forth in the Final Staff Report and Recommendation of DLCD (the DLCD Report) attached to and by this reference incorporated into this order.

ORDER

The Claim is approved as to laws administered by DLCD and the Land Conservation and Development Commission (LCDC) for the reasons set forth in the DLCD Report, and subject to the following terms:

1. In lieu of compensation under ORS 197.352, the State of Oregon will not apply the following laws to Marie and Laura Harry's division of the 79.08-acre property into either five parcels (one 40-acre parcel and four 10-acre parcels) or eight 10-acre parcels or to their development of a dwelling on each parcel: applicable provisions of Goal 3, ORS 215 and OAR 660, division 33. These land use regulations will not apply to the claimants only to the extent necessary to allow them to use the subject property for the use described in this report, and only to the extent that use was permitted when they acquired the property on November 7, 1971.
2. The action by the State of Oregon provides the state's authorization to the claimants to use the property for the use described in this report, subject to the standards in effect on November 7, 1971.
3. To the extent that any law, order, deed, agreement or other legally enforceable public or private requirement provides that the subject property may not be used without a permit, license or other form of authorization or consent, the order will not authorize the use of the property

unless the claimants first obtain that permit, license or other form of authorization or consent. Such requirements may include, but are not limited to: a building permit, a land use decision, a "permit" as defined in ORS 215.402 or 227.160, other permits or authorizations from local, state or federal agencies and restrictions on the use of the subject property imposed by private parties.

4. Any use of the property by the claimants under the terms of the order will remain subject to the following laws: (a) those laws not specified in (1) above; (b) any laws enacted or enforced by a public entity other than the Commission or the department; and (c) those laws not subject to ORS 197.352 including, without limitation, those laws exempted under ORS 197.352(3).

5. Without limiting the generality of the foregoing terms and conditions, in order for the claimants to use the subject property, it may be necessary for them to obtain a decision under ORS 197.352 from a city and/or county and/or metropolitan service district that enforces land use regulations applicable to the property. Nothing in this order relieves the claimants from the necessity of obtaining a decision under ORS 197.352 from a local public entity that has jurisdiction to enforce a land use regulation applicable to a use of the subject property by the claimants.

This Order is entered by the Deputy Director of the DLCD as a final order of DLCD and the Land Conservation and Development Commission under ORS 197.352, OAR 660-002-0010(8), and OAR 125, division 145, and by the Deputy Administrator for the State Services Division of the DAS as a final order of DAS under ORS 197.352, OAR 125, division 145, and ORS 293.

FOR DLCD AND THE LAND CONSERVATION
AND DEVELOPMENT COMMISSION:

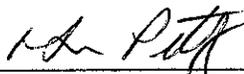

Lane Shetterly, Director

George Naughton, Deputy Director
DLCD

Dated this 14th day of April, 2006.

FOR the DEPARTMENT OF ADMINISTRATIVE
SERVICES:

Dugan Petty, Deputy Administrator
DAS, State Services Division

Dated this 14th day of April, 2006.

NOTICE OF RIGHT TO APPEAL OR OTHER JUDICIAL RELIEF

You are entitled, or may be entitled, to judicial remedies including the following:

1. Judicial review under ORS 183.484: Judicial review under ORS 183.484 may be obtained by filing a petition for review within 60 days from the service of this order. A petition for judicial review under ORS 183.484 may be filed in the Circuit Court for Marion County or the Circuit Court in the county in which you reside.
2. A cause of action under ORS 197.352 (Measure 37 (2004)): If a land use regulation continues to apply to the subject property more than 180 days after the present owner of the property has made written demand for compensation under ORS 197.352¹, the present owner of the property, or any interest therein, shall have a cause of action in the circuit court in which the real property is located.

(Copies of the documents that comprise the record are available for review at the Department's office at 635 Capitol Street NE, Suite 150, Salem, Oregon 97301-2540)

FOR INFORMATION ONLY

The Oregon Department of Justice has advised the Department of Land Conservation and Development that "[i]f the current owner of the real property conveys the property before the new use allowed by the public entity is established, then the entitlement to relief will be lost."

¹ By order of the Marion County Circuit Court, "all time lines under Measure 37 [were] suspended indefinitely" on October 25, 2005. This suspension was lifted on March 13, 2006 by the court. As a result, a period of 139 days (the number of days the time lines were suspended) has been added to the 180-day time period under ORS 197.352(6) for claims that were pending with the state on October 25, 2005.

CLAIM FOR COMPENSATION**

**OREGON DEPARTMENT OF LAND CONSERVATION AND DEVELOPMENT
Final Staff Report and Recommendation**

April 14, 2006

STATE CLAIM NUMBER: M118557

NAMES OF CLAIMANTS: Marie and Laura Harry

MAILING ADDRESS: 5170 Southwest Wickiup Avenue
Redmond, Oregon 97756

PROPERTY IDENTIFICATION: Township 15S, Range 12E, Section 25
Tax lot 100
Deschutes County

OTHER CONTACT INFORMATION: Edward P. Fitch
P.O. Box 457
Redmond, Oregon 97756

DATE RECEIVED BY DAS: June 3, 2005

180-DAY DEADLINE: April 18, 2006¹

I. SUMMARY OF CLAIM

The claimants, Marie and Laura Harry, seek compensation in the amount of \$1 million for the reduction in fair market value as a result of land use regulations that are alleged to restrict the use of certain private real property. The claimants desire compensation or the right to divide the 79.08-acre property into either five parcels (one 40-acre parcel and four 10-acre parcels) or eight 10-acre parcels and to develop a dwelling on each parcel. The subject property is located at 5170 Southwest Wickiup Avenue, near Redmond, in Deschutes County. (See claim.)

II. SUMMARY OF STAFF RECOMMENDATION

Based on the findings and conclusions set forth below, the Department of Land Conservation and Development (the department) has determined that the claim is valid. Department staff recommends that, in lieu of compensation, the requirements of the following state laws enforced by the Land Conservation and Development Commission (the Commission) or the department not apply to claimants Marie and Laura Harry's division of the 79.08-acre property into either

¹ This date reflects 180 days from the date the claim was submitted as extended by the 139 days enforcement of Ballot Measure 37 was suspended during the pendency of the appeal of *MacPherson v. Dep't of Admin. Servs.*, 340 Or ___, 2006 Ore. LEXIS 104 (February 21, 2006).

five parcels (one 40-acre parcel and four 10-acre parcels) or eight 10-acre parcels and to their development of a dwelling on each parcel: applicable provisions of Statewide Planning Goal 3 (Agricultural Lands), ORS 215 and Oregon Administrative Rules (OAR) 660, division 33. These laws will not apply to the claimants only to the extent necessary to allow them to use the subject property for the use described in this report, and only to the extent that use was permitted when they acquired the property on November 7, 1971. (See the complete recommendation in Section VI. of this report.)

III. COMMENTS ON THE CLAIM

Comments Received

On August 1, 2005, pursuant to OAR 125-145-0080, the Oregon Department of Administrative Services (DAS) provided written notice to the owners of surrounding properties. According to DAS, two written comments, evidence or information were received in response to the 10-day notice.

The comments do not address whether the claim meets the criteria for relief under ORS 197.352 (Ballot Measure 37). Comments concerning the effects a use of the property may have on surrounding areas are generally not something that the department is able to consider in determining whether to waive a state law. If funds do become available to pay compensation, then such effects may become relevant in determining which claims to pay compensation for instead of waive a state law. (See the comment letters in the department's claim file.)

IV. TIMELINESS OF CLAIM

Requirement

ORS 197.352(5) requires that a written demand for compensation be made:

1. For claims arising from land use regulations enacted prior to the effective date of Ballot Measure 37 (December 2, 2004), within two years of that effective date or the date the public entity applies the land use regulation as an approval criterion to an application submitted by the owner, whichever is later; or
2. For claims arising from land use regulations enacted after the effective date of Ballot Measure 37 (December 2, 2004), within two years of the enactment of the land use regulation, or the date the owner of the property submits a land use application in which the land use regulation is an approval criterion, whichever is later.

Findings of Fact

This claim was submitted to DAS on June 3, 2005, for processing under OAR 125, division 145. The claim identifies "all laws and rules enacted by the State of Oregon and/or Deschutes County since 1968 that restrict use of the property" as the basis for the claim. Only laws that were enacted or adopted prior to December 2, 2004, are the basis for this claim.

Conclusions

The claim has been submitted within two years of December 2, 2004, the effective date of Ballot Measure 37, based on land use regulations enacted or adopted prior to December 2, 2004, and is therefore timely filed.

V. ANALYSIS OF CLAIM

1. Ownership

ORS 197.352 provides for payment of compensation or relief from specific laws for “owners” as that term is defined in ORS 197.352. ORS 197.352(11)(C) defines “owner” as “the present owner of the property, or any interest therein.”

Findings of Fact

The claimants, Marie and Laura Harry, with their siblings Alice, Rosa, Theodore and John Harry, acquired the subject property on November 7, 1971, from their mother, Elizabeth Harry, as reflected by a warranty deed included with the claim.² Elizabeth Harry acquired the subject property from her husband Chris Harry, through a bargain and sale deed, on November 20, 1936, as reflected by a chain of title report included with the claim. The claim file does not establish the date Chris Harry acquired the subject property. On July 31, 2003, the claimants conveyed the subject property to the Harry Family Revocable Living Trust with Julius Harry as the sole trustee.³ The transfer of the subject property to the revocable trust did not change ownership under ORS 197.352.

The Deschutes County Assessor’s Office confirms that the Harry Family Revocable Living Trust is the current owner of the subject property.

Conclusions

The claimants, Marie and Laura Harry, are “owners” of the subject property as that term is defined by ORS 197.352(11)(C), as of November 7, 1971. The claim establishes that the Harry family has been an “owner” of the subject property as that term is defined by ORS 197.352(11)(C), since November 20, 1936.

2. The Laws That are the Basis for This Claim

In order to establish a valid claim, ORS 197.352(1) requires, in part, that a law must restrict the claimants’ use of private real property in a manner that reduces the fair market value of the property relative to how the property could have been used at the time the claimants or a family member acquired the property.

² Theodore and John Harry passed away on April 13, 1992, and December 8, 1994, respectively. (See copies of the death certificates in department file M119057.) Rosa and Alice Harry passed away on February 9, 2003, and September 29, 2004, respectively. (See the March 30, 2005, letter from Edward P. Fitch, attorney at law, to the department staff in department file M119057.)

³ See the March 30, 2005, letter from Edward P. Fitch, attorney at law, to the department staff in department file M119057.

Findings of Fact

The claim indicates that the claimants desire to divide the subject property into either five or eight lots for residential development, and the property's current zoning prohibits their desired division of the property.⁴

The claim is based generally on Deschutes County's current Exclusive Farm Use-Tumalo/Redmond/Bend (EFU-TRB) zone and the applicable provisions of state law that require such zoning. The claimants' property is zoned EFU as required by Goal 3, in accordance with ORS 215 and OAR 660, division 33, because the claimants' property is "agricultural land" as defined by Goal 3.⁵ Goal 3 became effective on January 25, 1975, and required that agricultural lands as defined by the Goal be zoned EFU pursuant to ORS 215.

Current land use regulations, particularly ORS 215.263, 215.284 and 215.780 and OAR 660, division 33, enacted or adopted pursuant to Goal 3, prohibit the division of EFU-zoned land into parcels smaller than 80 acres and establish standards for development of dwellings on existing or proposed parcels on that land.

ORS 215.780 establishes an 80-acre minimum size for the creation of new lots or parcels in EFU zones and became effective on November 4, 1993 (Chapter 792, Oregon Laws 1993). ORS 215.263 (2005 edition) establishes standards for the creation of new parcels for non-farm uses and dwellings allowed in an EFU zone.

OAR 660-033-0135 (applicable to farm dwellings) became effective on March 1, 1994, and interprets the statutory standard for a primary dwelling in an EFU zone under ORS 215.283(1)(f). OAR 660-033-0130(4) (applicable to non-farm dwellings) became effective on August 7, 1993, and was amended to comply with ORS 215.284(4) on March 1, 1994. The Commission subsequently adopted amendments to comply with House Bill 3326 (Chapter 704, Oregon Laws 2001, effective on January 1, 2002), which were effective on May 22, 2002. (See administrative rule history for OAR 660-033-0100, -0130 and -0135.)

The claim establishes that the claimants' family acquired the subject property on November 20, 1936, prior to the adoption of the statewide planning goals and their implementing statutes and regulations.

Conclusions

The current zoning requirements, minimum lot size and dwelling standards established by Goal 3, ORS 215 and OAR 660, division 33, were all enacted or adopted after the claimants' family acquired the subject property in 1936 and do not allow the desired division or residential

⁴ The claim also summarily cites all laws and rules enacted or adopted by the State of Oregon since 1968 that restrict use of the subject property as the laws upon which the claim is based. Absent an explanation as to how these laws apply to and restrict the use of the claimants' property in a manner that reduces its fair market value, only those laws that the department concludes may restrict the claimants' use of their property in a manner that may reduce its fair market value are addressed in this report.

⁵ The claimants' property is "agricultural land" because it contains Natural Resources Conservation Service Class I-VI soils.

development of the property. These laws restrict the use of the subject property relative to the uses allowed when the claimants' family acquired the property.

This report addresses only those state laws that are identified in the claim, or that the department is certain apply to the subject property based on the use that the claimants have identified. There may be other laws that currently apply to the claimants' use of the subject property, and that may continue to apply to the claimants' use of the property, that have not been identified in the claim. In some cases, it will not be possible to know which laws apply to a use of property until there is a specific proposal for that use. When the claimants seek a building or development permit to carry out a specific use, it may become evident that other state laws apply to that use.

3. Effect of Regulations on Fair Market Value

In order to establish a valid claim, ORS 197.352(1) requires that any land use regulation described in Section V.(2) of this report must have "the effect of reducing the fair market value of the property, or any interest therein."

Findings of Fact

The claim includes an estimate of \$1 million as the reduction in the subject property's fair market value due to current regulations. This amount is based on a real estate broker's estimate of the current market value of the entire property at \$585,000 to \$625,000,⁶ the market value of eight 10-acre parcels at \$1,360,000 to \$1,600,000 each and a 40-acre lot and four 10-acre lots at \$1,125,000 to \$1,245,000.

Conclusions

As explained in Section V.(1) of this report, the current owners are Marie and Laura Harry, whose family acquired the subject property on or before November 20, 1936. Under ORS 197.352, the claimants are due compensation for land use regulations that restrict the use of the subject property in a manner that reduces its fair market value. Based on the findings and conclusions in Section V.(2) of this report, laws enacted or adopted since the claimants' family acquired the subject property restrict the desired division and development of the property. The claimants estimate the reduction in value due to the restrictions to be \$1 million.

Without an appraisal or other documentation, it is not possible to substantiate the specific dollar amount the claimants demand for compensation. Nevertheless, based on the submitted information, the department determines that it is more likely than not that the fair market value of the subject property has been reduced to some extent as a result of land use regulations enforced by the Commission or the department.

4. Exemptions Under ORS 197.352(3)

ORS 197.352 does not apply to certain land use regulations. In addition, under ORS 197.352(1), certain types of laws are exempt from ORS 197.352.

⁶ The 2004 Deschutes County Assessor's real market value for the subject property is \$299,080.

Findings of Fact

The claim is based on state land use regulations that restrict the use of the subject property, including Goal 3, ORS 215 and OAR 660, division 33, which Deschutes County has implemented through its current EFU-TRB zone. All of these land use regulations were enacted or adopted after the claimants' family acquired the subject property.

Conclusions

It appears that none of the general statutory, goal and rule restrictions on residential development were in effect when the claimants' family acquired the subject property in or before 1936. As a result, these laws are not exempt under ORS 197.352(3)(E). Laws in effect when the claimants' family acquired the subject property are exempt under ORS 197.352(3)(E), and do not provide a basis for compensation. In addition, other land use laws enacted or adopted for a purpose set forth in ORS 197.352(3)(A) to (D) are also exempt, and would not provide a basis for compensation.

VI. FORM OF RELIEF

ORS 197.352(1) provides for payment of compensation to an owner of private real property if the Commission or the department has enforced laws that restrict the use of the property in a manner that reduces its fair market value. In lieu of compensation, the department may choose to not apply the law in order to allow the present owner to carry out a use of the property permitted at the time the current owner acquired the property. The Commission, by rule, has directed that if the department determines a claim is valid, the Director of the department must provide only non-monetary relief unless and until funds are appropriated by the legislature to pay claims.

Findings of Fact

Based on the findings and conclusions set forth in this report, laws enforced by the Commission or the department restrict the claimants' ability to divide the 79.08-acre property into either five parcels (one 40-acre parcel and four 10-acre parcels) or eight 10-acre parcels and to develop a dwelling on each parcel. The claim asserts that the laws enforced by the Commission or the department reduce the fair market value of the subject property by \$1 million. However, because the claim does not provide an appraisal or other specific documentation for how the specified restrictions reduce the fair market value of the subject property, a specific amount of compensation cannot be determined. Nevertheless, based on the record for this claim, the department acknowledges that the laws on which the claim is based likely have reduced the fair market value of the subject property to some extent.

No funds have been appropriated at this time for the payment of claims. In lieu of payment of compensation, ORS 197.352 authorizes the department to modify, remove or not apply all or parts of certain land use regulations to allow the present owners, claimants Marie and Laura Harry, to use the subject property for a use permitted at the time they acquired the property. The claimants acquired the subject property on November 7, 1971, prior to the adoption of the statewide planning goals and their implementing statutes and regulations.

Laws in effect when the claimants acquired the subject property will continue to apply to the property. In some cases, it will not be possible to know which laws apply to a use of the subject property until there is a specific proposal for that use. When the claimants seek a building or development permit to carry out a specific use, it may become evident that other state laws apply to that use, and depending on when they were enacted or adopted, may continue to apply to the claimants' property. In addition, some of these laws may be exempt under ORS 197.352(3)(A) to (D), and will continue to apply to the subject property on that basis.

This report addresses only those state laws that are identified in the claim, or that the department is certain apply to the subject property based on the uses that the claimants have identified. Similarly, this report only addresses the exemptions provided for under ORS 197.352(3) that are clearly applicable given the information provided to the department in the claim. The claimants should be aware that the less information they have provided to the department in their claim, the greater the possibility that there may be additional laws that will later be determined to continue to apply to their use of the subject property.

Conclusions

Based on the record, the department recommends that the claim be approved, subject to the following terms:

1. In lieu of compensation under ORS 197.352, the State of Oregon will not apply the following laws to Marie and Laura Harry's division of the 79.08-acre property into either five parcels (one 40-acre parcel and four 10-acre parcels) or eight 10-acre parcels or to their development of a dwelling on each parcel: applicable provisions of Goal 3, ORS 215 and OAR 660, division 33. These land use regulations will not apply to the claimants only to the extent necessary to allow them to use the subject property for the use described in this report, and only to the extent that use was permitted when they acquired the property on November 7, 1971.
2. The action by the State of Oregon provides the state's authorization to the claimants to use the property for the use described in this report, subject to the standards in effect on November 7, 1971.
3. To the extent that any law, order, deed, agreement or other legally enforceable public or private requirement provides that the subject property may not be used without a permit, license or other form of authorization or consent, the order will not authorize the use of the property unless the claimants first obtain that permit, license or other form of authorization or consent. Such requirements may include, but are not limited to: a building permit, a land use decision, a "permit" as defined in ORS 215.402 or 227.160, other permits or authorizations from local, state or federal agencies and restrictions on the use of the subject property imposed by private parties.
4. Any use of the property by the claimants under the terms of the order will remain subject to the following laws: (a) those laws not specified in (1) above; (b) any laws enacted or enforced by a public entity other than the Commission or the department; and (c) those laws not subject to ORS 197.352 including, without limitation, those laws exempted under ORS 197.352(3).
5. Without limiting the generality of the foregoing terms and conditions, in order for the claimants to use the subject property, it may be necessary for them to obtain a decision under

ORS 197.352 from a city and/or county and/or metropolitan service district that enforces land use regulations applicable to the property. Nothing in this order relieves the claimants from the necessity of obtaining a decision under ORS 197.352 from a local public entity that has jurisdiction to enforce a land use regulation applicable to a use of the subject property by the claimants.

VII. COMMENTS ON THE DRAFT STAFF REPORT

The department issued its draft staff report on this claim on March 14, 2006. OAR 125-145-0100(3), provided an opportunity for the claimants or the claimants' authorized agent and any third parties who submitted comments under OAR 125-145-0080 to submit written comments, evidence and information in response to the draft staff report and recommendation. Comments received have been taken into account by the department in the issuance of this final report.
