

BEFORE THE DEPARTMENT OF ADMINISTRATIVE SERVICES,
THE DEPARTMENT OF LAND CONSERVATION AND DEVELOPMENT OF
THE STATE OF OREGON

IN THE MATTER OF THE CLAIM FOR)	FINAL ORDER
COMPENSATION UNDER ORS 197.352)	CLAIM NO. M121456
(BALLOT MEASURE 37) OF)	
John and Nona Mitchell, CLAIMANTS)	

Claimants: John and Nona Mitchell (the Claimants)

Property: Township 38, Range 2E, Section 26, Tax lot 700, Jackson County (the Property)

Claim: The demand for compensation and any supporting information received from the Claimants by the State of Oregon (the Claim).

Claimants submitted the Claim to the State of Oregon under ORS 197.352. Under OAR 125-145-0010 *et seq.*, the Department of Administrative Services (DAS) referred the Claim to the Department of Land Conservation and Development (DLCD) as the regulating entity. This order is based on the record herein, including the Findings and Conclusions set forth in the Final Staff Report and Recommendation of DLCD (the DLCD Report) attached to and by this reference incorporated into this order.

ORDER

The Claim is approved as to laws administered by DLCD and the Land Conservation and Development Commission (LCDC) for the reasons set forth in the DLCD Report, and subject to the following terms:

1. In lieu of compensation under ORS 197.352, the State of Oregon will not apply the following laws to John and Nona Mitchell's division of the 10.06-acre property into two 5-acre parcels for residential development: the applicable provisions of Goal 14 and OAR 660-004-0040 adopted after October 30, 1978. These land use regulations will not apply to the claimants only to the extent necessary to allow them to use the property for the use described in this report, and only to the extent that the use was permitted when they acquired the property on October 30, 1978.
2. The action by the State of Oregon provides the state's authorization to the claimants to use the property, subject to the standards in effect on October 30, 1978. On that date, the property was subject to the applicable provisions of Goal 14, in effect at that time.
3. To the extent that any law, order, deed, agreement or other legally enforceable public or private requirement provides that the subject property may not be used without a permit, license or other form of authorization or consent, the order will not authorize the use of the property unless the claimants first obtain that permit, license or other form of authorization or consent. Such requirements may include, but are not limited to: a building permit, a land use decision, a

“permit” as defined in ORS 215.402 or 227.160, other permits or authorizations from local, state or federal agencies and restrictions on the use of the subject property imposed by private parties.

4. Any use of the subject property by the claimants under the terms of the order will remain subject to the following laws: (a) those laws not specified in (1) above; (b) any laws enacted or enforced by a public entity other than the Commission or the department; and (c) those laws not subject to ORS 197.352 including, without limitation, those laws exempted under ORS 197.352(3).

5. Without limiting the generality of the foregoing terms and conditions, in order for the claimants to use the subject property, it may be necessary for them to obtain a decision under ORS 197.352 from a city and/or county and/or metropolitan service district that enforces land use regulations applicable to the property. Nothing in this order relieves the claimants from the necessity of obtaining a decision under ORS 197.352 from a local public entity that has jurisdiction to enforce a land use regulation applicable to a use of the subject property by the claimants.

This Order is entered by the Director of the DLCD as a final order of DLCD and the Land Conservation and Development Commission under ORS 197.352, OAR 660-002-0010(8), and OAR 125, division 145, and by the Deputy Administrator for the State Services Division of the DAS as a final order of DAS under ORS 197.352, OAR 125, division 145, and ORS 293.

NOTICE OF RIGHT TO APPEAL OR OTHER JUDICIAL RELIEF

You are entitled, or may be entitled, to judicial remedies including the following:

1. Judicial review under ORS 183.484: Judicial review under ORS 183.484 may be obtained by filing a petition for review within 60 days from the service of this order. A petition for judicial review under ORS 183.484 may be filed in the Circuit Court for Marion County or the Circuit Court in the county in which you reside.
2. A cause of action under ORS 197.352 (Measure 37 (2004)): If a land use regulation continues to apply to the subject property more than 180 days after the present owner of the property has made written demand for compensation under ORS 197.352¹, the present owner of the property, or any interest therein, shall have a cause of action in the circuit court in which the real property is located.

(Copies of the documents that comprise the record are available for review at the Department's office at 635 Capitol Street NE, Suite 150, Salem, Oregon 97301-2540)

FOR INFORMATION ONLY

The Oregon Department of Justice has advised the Department of Land Conservation and Development that "[i]f the current owner of the real property conveys the property before the new use allowed by the public entity is established, then the entitlement to relief will be lost."

¹ By order of the Marion County Circuit Court, "all time lines under Measure 37 [were] suspended indefinitely" on October 25, 2005. This suspension was lifted on March 13, 2006 by the court. As a result, a period of 139 days (the number of days the time lines were suspended) has been added to the 180-day time period under ORS 197.352(6) for claims that were pending with the state on October 25, 2005.

ORS 197.352 (BALLOT MEASURE 37) CLAIM FOR COMPENSATION
OREGON DEPARTMENT OF LAND CONSERVATION AND DEVELOPMENT
Final Staff Report and Recommendation

May 26, 2006

STATE CLAIM NUMBER: M121456

NAMES OF CLAIMANTS: John and Nona Mitchell

MAILING ADDRESS: 12362 North Via Villa Rosa Avenue
Clovis, California 93619

PROPERTY IDENTIFICATION: Township 38, Range 2E, Section 26
Tax lot 700
Jackson County

DATE RECEIVED BY DAS: July 18, 2005

180-DAY DEADLINE: June 2, 2006¹

I. SUMMARY OF CLAIM

The claimants, John and Nona Mitchell, seek compensation in the amount of \$175,681 for the reduction in fair market value as a result of land use regulations that are alleged to restrict the use of certain private real property. The claimants desire compensation or the right to divide the 10.06-acre property into two 5-acre parcels for residential development. The subject property is located at 8014 Dead Indian Memorial Road, near Ashland, in Jackson County. (See claim.)

II. SUMMARY OF STAFF RECOMMENDATION

Based on the findings and conclusions set forth below, the Department of Land Conservation and Development (the department) has determined that the claim is valid. Department staff recommends that, in lieu of compensation, the requirements of the following state laws enforced by the Land Conservation and Development Commission (the Commission) or the department not apply to John and Nona Mitchell's division of the 10.06-acre property into two 5-acre parcels for residential development: applicable provisions of Statewide Planning Goal 14 (Urbanization) and Oregon Administrative Rules (OAR) 660-004-0040 adopted after October 30, 1978. These land use regulations will not apply to the claimants only to the extent necessary to allow them to use the subject property for the use described in this report, and only to the extent that use was permitted when they acquired the property in 1978. (See the complete recommendation in Section VI. of this report.)

¹This date reflects 180 days from the date the claim was submitted, as extended by the 139 days that all timelines under Measure 37 were suspended during the pendency of *MacPherson v. Dept. of Admin. Svcs.*, 340 Or 117 (2006).

III. COMMENTS ON THE CLAIM

Comments Received

On September 21, 2005, pursuant to OAR 125-145-0080, the Oregon Department of Administrative Services (DAS) provided written notice to the owners of surrounding properties. According to DAS, one written comment was received in response to the 10-day notice.

The comment does not address whether the claim meets the criteria for relief under ORS 197.352. Comments concerning the effects a use of the subject property may have on surrounding areas are generally not something that the department is able to consider in determining whether to waive a state law. If funds do become available to pay compensation, then such effects may become relevant in determining which claims to pay compensation for instead of waive a state law. (See the comment letter in the department's claim file.)

IV. TIMELINESS OF CLAIM

Requirement

ORS 197.352(5), requires that a written demand for compensation be made:

1. For claims arising from land use regulations enacted prior to the effective date of Measure 37 (December 2, 2004), within two years of that effective date, or the date the public entity applies the land use regulation as an approval criteria to an application submitted by the owner, whichever is later; or
2. For claims arising from land use regulations enacted after the effective date of Measure 37 (December 2, 2004), within two years of the enactment of the land use regulation, or the date the owner of the property submits a land use application in which the land use regulation is an approval criteria, whichever is later.

Findings of Fact

This claim was submitted to DAS on July 18, 2005, for processing under OAR 125, division 145. The claim identifies Jackson County Land Development Ordinances with regard to exclusive farm use and rural residential zoning, and "all provisions of ORS 197, ORS 215, Statewide Planning Goal 3, OAR 660, and provisions of Jackson County ordinances, including its Wildlife Habitat Overlay," as the laws that are the basis for the claim. Only laws that were enacted or adopted prior to December 2, 2004, are the basis for this claim.

Conclusions

The claim has been submitted within two years of the effective date of Measure 37 (December 2, 2004), based on land use regulations enacted or adopted prior to December 2, 2004, and is therefore timely filed.

V. ANALYSIS OF CLAIM

1. Ownership

ORS 197.352 provides for payment of compensation or relief from specific laws for “owners” as that term is defined in ORS 197.352. ORS 197.352(11)(C) defines “owner” as “the present owner of the property, or any interest therein.”

Findings of Fact

The claimants, John and Nona Mitchell, acquired the subject property on October 30, 1978, as reflected by a bargain and sale deed included with the claim.² On October 12, 2001, John and Nona Mitchell conveyed title to themselves as trustees of the Mitchell Family Trust, as reflected by a deed included with the claim. The Jackson County Assessor’s Office confirms that the claimants, as trustees of the Mitchell Family Trust, are current owners of the subject property.

Conclusions

The claimants, John and Nona Mitchell, as trustees of the Mitchell Family Trust, are “owners” of the subject property as that term is defined by ORS 197.352(11)(C), as of October 30, 1978.

2. The Laws That are the Basis for This Claim

In order to establish a valid claim, ORS 197.352(1) requires, in part, that a law must restrict the claimants’ use of private real property in a manner that reduces the fair market value of the property relative to how the property could have been used at the time the claimants or a family member acquired the property.

Findings of Fact

The claim lists a number of state and county land use regulations, and states that they restrict the claimants from dividing the subject property into two parcels, with a single-family dwelling established on each parcel. The claim lists all provisions of ORS 197 and 215, Goal 3, OAR 660, and transportation planning rules enacted since 1978. With the exception of laws discussed below, in the absence of any explanation by the claimants as to how the listed regulations restrict the use of the property, this report does not address those regulations.

The claim is based generally on Jackson County’s current RR-00 zone, and the applicable provisions of state law that require such zoning. The county’s RR-00 zone is a rural residential zone as required by Goal 14, which generally requires that land outside of urban growth boundaries be used for rural uses.

Goal 14 was effective on January 25, 1975, and requires that local comprehensive plans identify and separate urbanizable land from rural land in order to provide for an orderly and

² The deed submitted with the claim shows that the claimants acquired the property from Ray and Dorothy Mitchell. However, the claim does not assert that the claimants acquired the property from “family members,” as that term is defined in ORS 197.352(11)(A).

efficient transition from rural to urban land use. In 2000, as a result of a 1986 Oregon Supreme Court decision,³ the Commission amended Goal 14 and adopted OAR 660-004-0040 (Application of Goal 14 to Rural Residential Areas), which was effective on October 4, 2000.

OAR 660-004-0040 states that if a county rural residential zone in effect on October 4, 2000, specifies a minimum lot size of two acres or more, the area of any new lot or parcel shall equal or exceed the minimum lot size that is already in effect (OAR 660-004-0040(7)(c)). Some relief from this provision is available for lots or parcels having more than one permanent habitable dwelling pursuant to OAR 660-004-0040(7)(h). The rule also provides that a county's minimum lot size requirement in a rural residential zone shall not be amended to allow a smaller minimum lot size without approval of an exception to Goal 14 (OAR 660-004-0040(6)). Because Jackson County's Rural Residential zone was in effect on October 4, 2000, and allows no additional land divisions, the rule also prohibits additional land divisions without an exception to Goal 14.

The claimants acquired the subject property after the adoption of the statewide planning goals, but before the Commission acknowledged Jackson County's land use regulations to be in compliance with the statewide planning goals pursuant to ORS 197.250 and 197.251. Because the Commission had not acknowledged Jackson County's plan and land use regulations when the claimants acquired the subject property in 1978, the statewide planning goals, including Goal 14, applied directly to the claimants' property when they acquired it.⁴ The claim does not establish whether the claimants' desired use would have been permitted under Goal 14. Jackson County zoning for the subject property in 1978, when the claimants' acquired the property, was Open Space Development Five (5) Acres.

The claimants also desire that the state change the zoning of the property back to the zoning in effect when the claimants acquired the property. The department does not have authority to modify the county zoning of the property; it only has authority to not apply laws that restrict the claimants' use to allow the claimants to use the property for a use permitted when they acquired the property.

Conclusions

The minimum lot size requirements for rural residential lots or parcels established by Goal 14 and OAR 660-004-0040 were adopted after the claimants acquired the subject property in 1978 and do not allow the desired division of the property. When the claimants acquired the subject property in 1978, the statewide planning goals, and in particular the general requirements of

Goal 14, applied directly to the property. The claim does not establish whether or to what extent the claimants' desired use of the property would have been permitted under the laws in effect in 1978 (including Goal 14) when the claimants acquired the property.

This report addresses only those state laws that are identified in the claim, or that the department is certain apply to the subject property based on the use that the claimants have identified. There may be other laws that currently apply to the claimants' use of the subject property, and that may continue to apply to the claimants' use of the subject property, that have not been identified in the claim. In some cases, it will not be possible to know which laws apply to a use of subject property until there is a specific proposal for that use. When the claimants seek a building or development permit to carry out a specific use, it may become evident that other state laws apply to that use.

3. Effect of Regulations on Fair Market Value

In order to establish a valid claim, ORS 197.352(1) requires that any land use regulation described in Section V.(2) of this report must have "the effect of reducing the fair market value of the property, or any interest therein."

Findings of Fact

The claim includes an estimate of \$175,681 as the reduction in the subject property's fair market value due to current regulations. This amount is based on a competitive market analysis.

Conclusions

As explained in Section V.(1) of this report, the claimants are John and Nona Mitchell who acquired the subject property on October 30, 1978. Under ORS 197.352, the claimants are due compensation for land use regulations that restrict the use of the subject property in a manner that reduces its fair market value. Based on the findings and conclusions in Section V.(2) of this report, laws adopted since the claimants acquired the subject property restrict the desired division of the property. The claimants estimate the reduction in value due to the restrictions to be \$175,681.

Without an appraisal or other documentation, and without verification of whether or the extent to which the claimants' desired use of the subject property was allowed under the standards in effect when they acquired the property, it is not possible to substantiate the specific dollar amount the claimants demand for compensation. Nevertheless, based on the submitted information, the department determines that it is more likely than not the fair market value of the subject property has been reduced to some extent as a result of land use regulations enforced by the Commission or the department.

4. Exemptions Under ORS 197.352(3)

ORS 197.352 does not apply to certain land use regulations. In addition, under ORS 197.352(3), certain types of laws are exempt from ORS 197.352.

Findings of Fact

The claim is based on state land use regulations that restrict the use of the subject property, including Goal 14 and OAR 660-004-0040, which Jackson County has implemented through its RR-00 zone. Both of these land use regulations were adopted after the claimants acquired the subject property.

Conclusions

Without a specific development proposal for the subject property, it is not possible for the department to determine all the laws that may apply to a particular use of the property, or whether those laws may fall under one or more of the exemptions under ORS 197.352. It appears that the general goal and rule restrictions on residential division of the claimants' property are not exempt under ORS 197.352(3)(E) to the extent they were adopted after the claimants acquired the property. Provisions of Goal 14 in effect when the claimants acquired the subject property in 1978 are exempt under ORS 197.352(3)(E) and will continue to apply to the property.

Other laws in effect when the claimants acquired the subject property are also exempt under ORS 197.352(3)(E) and will continue to apply to the claimants' use of the property. There may be other laws that continue to apply to the claimants' use of the subject property that have not been identified in the claim. In some cases, it will not be possible to know which laws apply to a use of subject property until there is a specific proposal for that use. When the claimants seek a building or development permit to carry out a specific use, it may become evident that other state laws apply to that use. In some cases, some of these laws may be exempt under ORS 197.352(3)(A) to (D).

This report addresses only those state laws that are identified in the claim, or that the department is certain apply to the subject property based on the uses that the claimants have identified. Similarly, this report only addresses the exemptions provided for under ORS 197.352(3) that are clearly applicable, given the information provided to the department in the claim. The claimants should be aware that the less information they have provided to the department in their claim, the greater the possibility that there may be additional laws that will later be determined to continue to apply to their use of the subject property.

VI. FORM OF RELIEF

ORS 197.352(1) provides for payment of compensation to an owner of private real property if the Commission or the department has enforced one or more laws that restrict the use of the property in a manner that reduces its fair market value. In lieu of compensation, the department may choose to not apply the law in order to allow the present owner to carry out a use of the property permitted at the time the current owner acquired the property. The Commission, by rule, has directed that if the department determines a claim is valid, the Director of the department must provide only non-monetary relief unless and until funds are appropriated by the legislature to pay claims.

Findings of Fact

Based on the findings and conclusions set forth in this report, laws enforced by the Commission or the department restrict the claimants' ability to divide the 10.06-acre property into two 5-acre parcels for residential use. The claim asserts that the laws enforced by the Commission or the department reduce the fair market value of the subject property by \$175,681. However, because the claim does not provide an appraisal or other specific documentation establishing how the specified restrictions reduce the fair market value of the subject property, and without verification of whether or the extent to which the claimants desired use of the property was allowed under the standards in effect when they acquired the property, a specific amount of compensation cannot be determined. Nevertheless, based on the record for this claim, the department acknowledges that the laws on which the claim is based likely have reduced the fair market value of the subject property to some extent.

No funds have been appropriated at this time for the payment of claims. In lieu of payment of compensation, ORS 197.352 authorizes the department to modify, remove or not apply all or parts of certain land use regulations to allow John and Nona Mitchell to use the subject property for a use permitted at the time they acquired the property on October 30, 1978.

Conclusions

Based on the record, the department recommends that the claim be approved, subject to the following terms:

1. In lieu of compensation under ORS 197.352, the State of Oregon will not apply the following laws to John and Nona Mitchell's division of the 10.06-acre property into two 5-acre parcels for residential development: the applicable provisions of Goal 14 and OAR 660-004-0040 adopted after October 30, 1978. These land use regulations will not apply to the claimants only to the extent necessary to allow them to use the property for the use described in this report, and only to the extent that the use was permitted when they acquired the property on October 30, 1978.
2. The action by the State of Oregon provides the state's authorization to the claimants to use the property, subject to the standards in effect on October 30, 1978. On that date, the property was subject to the applicable provisions of Goal 14, in effect at that time.
3. To the extent that any law, order, deed, agreement or other legally enforceable public or private requirement provides that the subject property may not be used without a permit, license or other form of authorization or consent, the order will not authorize the use of the property unless the claimants first obtain that permit, license or other form of authorization or consent. Such requirements may include, but are not limited to: a building permit, a land use decision, a "permit" as defined in ORS 215.402 or 227.160, other permits or authorizations from local, state or federal agencies and restrictions on the use of the subject property imposed by private parties.
4. Any use of the subject property by the claimants under the terms of the order will remain subject to the following laws: (a) those laws not specified in (1) above; (b) any laws enacted or enforced by a public entity other than the Commission or the department; and (c) those laws not subject to ORS 197.352 including, without limitation, those laws exempted under ORS 197.352(3)

5. Without limiting the generality of the foregoing terms and conditions, in order for the claimants to use the subject property, it may be necessary for them to obtain a decision under ORS 197.352 from a city and/or county and/or metropolitan service district that enforces land use regulations applicable to the property. Nothing in this order relieves the claimants from the necessity of obtaining a decision under ORS 197.352 from a local public entity that has jurisdiction to enforce a land use regulation applicable to a use of the subject property by the claimants.

VII. COMMENTS ON THE DRAFT STAFF REPORT

The department issued its draft staff report on this claim on May 10, 2006. OAR 125-145-0100(3), provided an opportunity for the claimants or the claimants' authorized agent and any third parties who submitted comments under OAR 125-145-0080 to submit written comments, evidence and information in response to the draft staff report and recommendation. Comments received have been taken into account by the department in the issuance of this final report.
