*Re: Ballot Measure 37 (ORS 197.352) Claim Number M131149*

*Claimants: Paul and Dawn Black*

---

Enclosed, in regard to the above-referenced claim for compensation under Ballot Measure 37 (ORS 197.352), is the Final Staff Report and Recommendation of the Department of Land Conservation and Development, and the Final Order.

This Final Staff Report and Recommendation and the Final Order constitute the final decision on this claim. No further action will be taken on this matter.

BEFORE THE DEPARTMENT OF ADMINISTRATIVE SERVICES,  
THE DEPARTMENT OF LAND CONSERVATION AND DEVELOPMENT OF  
THE STATE OF OREGON

IN THE MATTER OF THE CLAIM FOR	)	FINAL ORDER
COMPENSATION UNDER ORS 197.352	)	CLAIM NO. M131149
(BALLOT MEASURE 37) OF	)	
Paul and Dawn Black, CLAIMANTS	)	

Claimants: Paul and Dawn Black (the Claimants)

Property: Township 41S, Range 12W, Section 6D, Tax lot 400, Curry County (the Property)

Claim: The demand for compensation and any supporting information received from the Claimants by the State of Oregon (the Claim).

Claimants submitted the Claim to the State of Oregon under ORS 197.352. Under OAR 125-145-0010 *et seq.*, the Department of Administrative Services (DAS) referred the Claim to the Department of Land Conservation and Development (DLCD) as the regulating entity. This order is based on the record herein, including the Findings and Conclusions set forth in the Final Staff Report and Recommendation of DLCD (the DLCD Report) attached to and by this reference incorporated into this order.

ORDER

The Claim is approved as to laws administered by DLCD and the Land Conservation and Development Commission (LCDC) for the reasons set forth in the DLCD Report, and subject to the following terms:

1. In lieu of compensation under ORS 197.352, the State of Oregon will not apply the following laws to Paul and Dawn Black's division of the 12-acre subject property into one-acre or larger parcels or to their development of a dwelling on each parcel: applicable provisions of Goals 3 and 4, ORS 215 and OAR 660, divisions 6, and 33, enacted or adopted after each claimant acquired the subject property. These land use regulations will not apply to the claimants only to the extent necessary to allow them to use the subject property for the use described in this report, and only to the extent that use was permitted when Paul Black acquired the property on March 13, 1981, and when Dawn Black acquired the property on March 24, 2005. The department acknowledges that the relief to which Dawn Black is entitled under ORS 197.352 will not allow her to use the subject property in the manner set forth in the claim.

2. The action by the State of Oregon provides the state's authorization to the claimants to use the subject property for the use described in this report, subject to the standards in effect when Paul Black acquired the property on March 13, 1981, and when Dawn Black acquired the property on March 24, 2005. On March 13, 1981, the property was subject to applicable provisions of Goal 3 or 4 and ORS 215 then in effect. On March 24, 2005, the property was subject to the applicable provisions of Goals 3 and 4, ORS 215 and OAR 660, divisions 6, and 33, currently in effect.

3. To the extent that any law, order, deed, agreement or other legally enforceable public or private requirement provides that the subject property may not be used without a permit, license or other form of authorization or consent, the order will not authorize the use of the property unless the claimants first obtain that permit, license or other form of authorization or consent. Such requirements may include, but are not limited to: a building permit, a land use decision, a "permit" as defined in ORS 215.402 or 227.160, other permits or authorizations from local, state or federal agencies and restrictions on the use of the subject property imposed by private parties.

4. Any use of the subject property by the claimants under the terms of the order will remain subject to the following laws: (a) those laws not specified in (1) above; (b) any laws enacted or enforced by a public entity other than the Commission or the department and (c) those laws not subject to ORS 197.352 including, without limitation, those laws exempted under ORS 197.352(3).

5. Without limiting the generality of the foregoing terms and conditions, in order for the claimants to use the subject property, it may be necessary for them to obtain a decision under ORS 197.352 from a city and/or county and/or metropolitan service district that enforces land use regulations applicable to the property. Nothing in this order relieves the claimants from the necessity of obtaining a decision under ORS 197.352 from a local public entity that has jurisdiction to enforce a land use regulation applicable to a use of the subject property by the claimants.

6. Nothing in this report or the state's final order for this claim constitutes any determination of ownership by the State of Oregon as to submerged or submersible lands, or as to public rights to the use of waters of the state.

This Order is entered by the Acting Director of the DLCD as a final order of DLCD and the Land Conservation and Development Commission under ORS 197.352, OAR 660-002-0010(8), and OAR 125, division 145, and by the Manager for the Measure 37 Services Unit of the DAS as a final order of DAS under ORS 197.352, OAR 125, division 145, and ORS 293.

FOR DLCD AND THE LAND  
CONSERVATION AND  
DEVELOPMENT COMMISSION:

  
Cora R. Parker, Acting Director  
DLCD

Dated this 24<sup>th</sup> day of September, 2007.

FOR the DEPARTMENT OF  
ADMINISTRATIVE SERVICES:

  
Carla Ploederer, Manager  
DAS, Measure 37 Services Unit  
Dated this 24<sup>th</sup> day of September, 2007.

## **NOTICE OF RIGHT TO APPEAL OR OTHER JUDICIAL RELIEF**

You are entitled, or may be entitled, to judicial remedies including the following:

1. Judicial review under ORS 183.484: Judicial review under ORS 183.484 may be obtained by filing a petition for review within 60 days from the service of this order. A petition for judicial review under ORS 183.484 may be filed in the Circuit Court for Marion County or the Circuit Court in the county in which you reside.
2. A cause of action under ORS 197.352 (Measure 37 (2004)): If a land use regulation continues to apply to the subject property more than 180 days after the present owner of the property has made written demand for compensation under ORS 197.352, the present owner of the property, or any interest therein, shall have a cause of action in the circuit court in which the real property is located.

(Copies of the documents that comprise the record are available for review at the Department's office at 635 Capitol Street NE, Suite 150, Salem, Oregon 97301-2540)

### **FOR INFORMATION ONLY**

The Oregon Department of Justice has advised the Department of Land Conservation and Development that “[i]f the current owner of the real property conveys the property before the new use allowed by the public entity is established, then the entitlement to relief will be lost.”

**ORS 197.352 (BALLOT MEASURE 37) CLAIM FOR COMPENSATION**

**OREGON DEPARTMENT OF LAND CONSERVATION AND DEVELOPMENT  
Final Staff Report and Recommendation**

September 24, 2007

**STATE CLAIM NUMBER:** M131149

**NAMES OF CLAIMANTS:** Paul and Dawn Black

**MAILING ADDRESS:** 1479 Whistling Drive  
Redding, California 96002

**PROPERTY IDENTIFICATION:** Township 41S, Range 12W, Section 6D  
Tax lot 400  
Curry County

**DATE RECEIVED BY DAS:** November 24, 2006

**DEADLINE FOR FINAL ACTION:<sup>1</sup>** May 17, 2008

**I. SUMMARY OF CLAIM**

The claimants, Paul and Dawn Black, seek compensation in the amount of \$4 million for the reduction in fair market value as a result of land use regulations that are alleged to restrict the use of certain private real property. The claimants desire compensation or the right to divide the 12-acre subject property into one-acre or larger parcels and to develop a dwelling on each parcel.<sup>2</sup> The subject property is located at 612 Winchuck River Road, near Brookings, in Curry County. (See claim.)

**II. SUMMARY OF STAFF RECOMMENDATION**

Based on the findings and conclusions set forth below, the Department of Land Conservation and Development (the department) has determined that the claim is valid. Department staff recommends that, in lieu of compensation, the requirements of the following state laws enforced by the Land Conservation and Development Commission (the Commission) or the department not apply to Paul and Dawn Black's division of the 12-acre subject property into one-acre or

---

<sup>1</sup> ORS 197.352, as originally enacted, required that final action on claims made under Measure 37 be made within 180 days of the date the claim was filed. In response to the large volume of claims filed in late 2006, the Oregon legislature passed House Bill 3546, which became effective on May 10, 2007. This legislation increased the amount of time state and local governments have to take final action on Measure 37 claims filed on or after November 1, 2006, by 360 days, to a total of 540 days.

<sup>2</sup> The state claim form does not clearly establish the type of development the claimant desires. Curry County's staff report for a county claim filed under ORS 197.352 for the same property indicates that the claimant desires to divide the property into parcels of at least one acre for residential development of the subject property. This report relies on the information in the county report.

larger parcels and to their development of a dwelling on each parcel: applicable provisions of Statewide Planning Goals 3 (Agricultural Lands) and 4 (Forest Lands), ORS 215 and Oregon Administrative Rules (OAR) 660, divisions 6, and 33, enacted or adopted after each claimant acquired the subject property. These land use regulations will not apply to the claimants only to the extent necessary to allow them to use the subject property for the use described in this report, and only to the extent that use was permitted when Paul Black acquired the property on March 13, 1981 and Dawn Black acquired the property on March 24, 2005. The department acknowledges that the relief to which Dawn Black is entitled under ORS 197.352 will not allow her to use the subject property in the manner set forth in the claim. (See the complete recommendation in Section VI. of this report.)

### **III. COMMENTS ON THE CLAIM**

#### **Comments Received**

On June 26, 2007, pursuant to OAR 125-145-0080, the Oregon Department of Administrative Services (DAS) provided written notice to the owners of surrounding properties. According to DAS, one written comment was received in response to the 15-day notice.

The comment does not address whether the claim meets the criteria for relief under ORS 197.352. Comments concerning the effects a use of the property may have on surrounding areas are generally not something that the department is able to consider in determining whether to waive a state law. If funds do become available to pay compensation, then such effects may become relevant in determining which claims to pay compensation for instead of waive a state law. (See the comment letter in the department's claim file.)

### **IV. TIMELINESS OF CLAIM**

#### **Requirement**

ORS 197.352(5) requires that a written demand for compensation be made:

1. For claims arising from land use regulations enacted prior to the effective date of Measure 37 (December 2, 2004), within two years of that effective date, or the date the public entity applies the land use regulation as an approval criteria to an application submitted by the owner, whichever is later; or
2. For claims arising from land use regulations enacted after the effective date of Measure 37 (December 2, 2004), within two years of the enactment of the land use regulation, or the date the owner of the property submits a land use application in which the land use regulation is an approval criteria, whichever is later.

#### **Findings of Fact**

This claim was submitted to DAS on November 24, 2006, for processing under OAR 125, division 145. The claim identifies "all laws and rules" as the basis for the claim. Only laws that were enacted or adopted prior to December 2, 2004, are the basis for this claim.

## **Conclusions**

The claim has been submitted within two years of the effective date of Measure 37 (December 2, 2004), based on land use regulations enacted or adopted prior to December 2, 2004, and is therefore timely filed.

## **V. ANALYSIS OF CLAIM**

### **1. Ownership**

ORS 197.352 provides for payment of compensation or relief from specific laws for “owners” as that term is defined in ORS 197.352. ORS 197.352(11)(C) defines “owner” as “the present owner of the property, or any interest therein.”

### **Findings of Fact**

Claimant Paul Black acquired the subject property on March 13, 1981, as reflected by a warranty deed included with the claim. Paul Black conveyed an interest in the subject property to his wife, claimant Dawn Black, on March 24, 2005, as reflected by a bargain and sale deed included with the claim. The Curry County Assessor’s Office confirms the claimants’ current ownership of the subject property.

### **Conclusions**

The claimants, Paul and Dawn Black, are “owners” of the subject property as that term is defined by ORS 197.352(11)(C). Paul Black has been an owner since March 13, 1981. Dawn Black has been an owner since March 24, 2005. Paul Black is a “family member” of Dawn Black as that term is defined by ORS 197.352(11)(A).

### **2. The Laws That are the Basis for This Claim**

In order to establish a valid claim, ORS 197.352(1) requires, in part, that a law must restrict the claimants’ use of private real property in a manner that reduces the fair market value of the property relative to how the property could have been used at the time the claimants or a family member acquired the property.

### **Findings of Fact**

The claim indicates that the claimants desire to divide the 12-acre subject property into one-acre or larger parcels and to develop a dwelling on each parcel, and that the current land use regulations prevent the desired use.<sup>3</sup>

---

<sup>3</sup> The claimants summarily lists numerous state land use laws as applicable to this claim, but do not establish how the laws either apply to the claimants’ desired use of the subject property or restrict its use with the effect of reducing its fair market value. On their face, most of the regulations either do not apply to the claimants’ property or do not restrict the use of the claimants’ property with the effect of reducing its fair market value. This report addresses only those regulations that the department finds are applicable to and restrict the claimants’ desired use of the subject property, based on the claimants’ description of their desired use.

The claim is based generally on the applicable provisions of state law that allow mixed agriculture-forest zoning and restrict uses on land zoned mixed agriculture-forest. The claimants' property is zoned Forestry Grazing (FG) by Curry County. The county's FG zone is a mixed agricultural and forest land zone, in accordance with Goals 3 and 4, as implemented by OAR 660-006-0050. Goals 3 and 4 became effective on January 25, 1975, and required that agricultural lands as defined by Goal 3 be zoned for farm uses and that forest lands under Goal 4 be zoned for forest uses. OAR 660-006-0050 authorizes local governing bodies to establish mixed agriculture-forest zones in accordance with Goals 3 and 4 and OAR 660, divisions 6, and 33.

Under OAR 660-006-0050(2), effective on February 5, 1990, and subsequently amended on March 1, 1994, to comply with the provisions of House Bill 3661 (Chapter 792, Oregon Laws 1993), uses allowed in Exclusive Farm Use (EFU) zones under Goal 3 and forest zones under Goal 4 are allowed in mixed agriculture-forest zones.

For land divisions, OAR 660-006-0055 requires local governing bodies to apply the standards of OAR 660-006-0026 and 660-033-0100, which implement the minimum lot size requirements in ORS 215.780. ORS 215.780(1) establishes an 80-acre minimum for the creation of new lots or parcels in EFU and forest zones and became effective on November 4, 1993 (Chapter 792, Oregon Laws 1993).

For the approval and siting of dwellings, under OAR 660-006-0050(2) and (3), counties must apply either the OAR 660, division 6, or 33, standards based on the predominant use of the tract on January 1, 1993.<sup>4</sup> The provisions of OAR 660-006-0027 and 660-006-0029 apply to dwelling approval and siting where the predominant use of the tract on that date was forest, and the provisions of OAR 660-033-0030 and 660-033-0035 apply where the predominant use of the tract on that date was agriculture.

Claimant Paul Black acquired the subject property after the adoption of the statewide planning goals, but before the Commission acknowledged Curry County's land use regulations to be in compliance with the statewide planning goals pursuant to ORS 197.250 and 197.251.<sup>5</sup> At that time, the property was zoned Rural Agriculture (RA) by Curry County, which allowed a one-acre minimum lot size for the creation of new lots or parcels. However, because the Commission had not acknowledged the county's plan and land use regulations when Paul Black acquired the subject property on March 13, 1981, the applicable statewide planning goals would have applied directly to any development application for the claimants' property.<sup>6</sup> Depending on the nature of

<sup>4</sup> The claim does not include information regarding the predominant use of the property on January 1, 1993.

<sup>5</sup> Curry County's comprehensive plan was acknowledged by the Commission for compliance with Goals 3 and 4 on February 17, 1984.

<sup>6</sup> The statewide planning goals became effective on January 25, 1975, and were applicable to legislative land use decisions and some quasi-judicial land use decisions prior to the Commission's acknowledgment of each county's land use regulations. *Perkins v. City of Rajneeshpuram*, 300 Or 1 (1985); *Alexanderson v. Polk County*, 289 Or 427, rev den 290 Or 137 (1980); *Sunnyside Neighborhood Assn. v. Clackamas County*, 280 Or 569 (1977); *Jurgenson v. Union County*, 42 Or App 505 (1979) and *1000 Friends of Oregon v. Benton County*, 32 Or App 413 (1978). After the county's plan and land use regulations were acknowledged by the Commission, the statewide planning goals and implementing rules no longer directly applied to such local land use decisions. *Byrd v. Stringer*, 295 Or 311 (1983). However, statutory requirements continue to apply, and insofar as the state and local provisions are materially the same, the local provisions must be interpreted consistent with the substance of the goals and implementing rules. *Forster v. Polk County*, 115 Or App 475 (1992); *Kenagy v. Benton County*, 115 Or App 131 (1992).

the property in 1981, the claimants' property would have been subject to compliance with either the Goal 3 or 4 standards applicable at that time.

As adopted in 1975, the Goal 3 standards for a division of land required that the created lots or parcels be of a size "appropriate for the continuation of the existing commercial agricultural enterprise within the area." Further, ORS 215.263 (1975 edition) required that all land divisions subject to EFU zoning under Goal 3 comply with the legislative intent in ORS 215.243 (Agricultural Land Use Policy). Thus, under Goal 3, the opportunity to divide the subject property when the Paul Black acquired it on March 13, 1981, was limited to new lots or parcels that were (1) appropriate for the continuation of the existing commercial agricultural enterprise in the area, and (2) shown to be consistent with the legislative intent in ORS 215. At that time, farm dwellings were allowed under Goal 3 if they were determined to be "customarily provided in conjunction with farm use" under ORS 215.213(1)(e) (1975 edition),<sup>7</sup> and non-farm dwellings were subject to ORS 215.213(3) (1975 edition).<sup>8</sup> Other uses were authorized and governed by the applicable provisions under Goal 3 and ORS 215.213.

As adopted in 1975, Goal 4 was intended to "conserve forest lands for forest uses" and required that lands suitable for forest uses "be inventoried and designated as forest lands" and that existing forest land uses "be protected unless proposed changes are in conformance with the comprehensive plan." Those forest uses were defined as: "(1) the production of trees and the processing of forest products; (2) open space, buffers from noise, and visual separation of conflicting uses; (3) watershed protection and wildlife and fisheries habitat; (4) soil protection from wind and water; (5) maintenance of clean air and water; (6) outdoor recreational activities and related support services and wilderness values compatible with these uses; and (7) grazing land for livestock." Specifically, Goal 4 only allowed land divisions that would protect commercial forest lands for commercial forest uses. Dwellings in forest zones could only be allowed if found to be "necessary and accessory" to one of the enumerated forest uses listed in Goal 4.<sup>9</sup>

The claim does not establish whether or to what extent the claimants' desired division and development of the subject property were allowed under the standards in effect when Paul Black acquired the property on March 13, 1981.

---

<sup>7</sup> Under ORS 215.213 (1975 edition), a farm dwelling could be established on agricultural land only if the farm use to which the dwelling related was in existence (*Newcomer v. Clackamas County*, 92 Or App 174, modified 94 Or App 33 (1988) and *Matteo v. Polk County*, 11 Or LUBA 259, 263 (1984), affirmed without opinion 70 Or App 179 (1984)). Guidance on the application of the statutory standards for farm and non-farm dwellings in EFU zones prior to the enactment of House Bill 3661 in 1993 can be found in the Commission rules (OAR 660, division 5, adopted on July 21, 1982, amended on June 7, 1986, and repealed on August 7, 1993).

<sup>8</sup> When determining whether land is "generally unsuitable for the production of farm crops and livestock" under ORS 215.213(3), the entire parcel or tract must be evaluated rather than a portion thereof. *Smith v. Clackamas County*, 313 Or 519 (1992).

<sup>9</sup> Goal 4 prohibited uses that were not enumerated by Goal 4 as permissible uses for forest lands as well as those that were not necessary and accessory to an enumerated forest use. *Lamb v. Lane County*, 7 Or LUBA 137 (1983). Dwellings in forest lands were required to be "necessary and accessory" to show that such dwellings complied with the Goal 4 requirement that local land use regulations must "conserve forest lands for forest uses." *1000 Friends v. LCDC (Curry County)*, 301 Or 447 (1986). A dwelling that may "enhance" forest uses is not "necessary and accessory" to a forest use to the extent required by Goal 4. *1000 Friends of Oregon v. LCDC (Lane County)*, 305 Or 384 (1988). For additional guidance, the Goal 4 provisions were interpreted under OAR 660, division 6, effective on September 1, 1982, in *1000 Friends of Oregon v. LCDC (Lane County)* and in *1000 Friends v. LCDC (Curry County)*.

## **Conclusions**

The current zoning requirements, minimum lot size and dwelling standards established under the applicable provisions of Goals 3 and 4, ORS 215 and OAR 660, divisions 6, and 33, for lands zoned for mixed agriculture-forest use were enacted or adopted after Paul Black acquired the subject property in 1981 and do not allow the claimants' desired division and development of the property. However, the claim does not establish whether or to what extent the claimants' desired use of the subject property complies with the standards for land division and development under Goal 3 or 4 applicable and in effect when Paul Black acquired the property on March 13, 1981.

This report addresses only those state laws that are identified in the claim, or that the department is certain apply to the subject property, based on the uses that the claimants have identified. There may be other laws that currently apply to the claimants' use of the subject property, and that may continue to apply to the claimants' use of the property, that have not been identified in the claim. In some cases, it will not be possible to know which laws apply to a use of the subject property until there is a specific proposal for that use. When the claimants seek a building or development permit to carry out a specific use, it may become evident that other state laws apply to that use.

### **3. Effect of Regulations on Fair Market Value**

In order to establish a valid claim, ORS 197.352(1) requires that the land use regulation(s) (described in Section V.(2) of this report) must have "the effect of reducing the fair market value of the property, or any interest therein."

### **Findings of Fact**

The claim includes an estimate of \$4 million as the reduction in the subject property's fair market value due to the regulations that restrict the claimants' desired use of the property. This amount is based on the claimants' assessment of the subject property's value.

## **Conclusions**

As explained in Section V.(1) of this report, the claimants are Paul Black who acquired the subject property in 1981 and his wife, Dawn Black. Under ORS 197.352, the claimants are due compensation for land use regulations that restrict the use of the property and have the effect of reducing its fair market value. Based on the findings and conclusions in Section V.(2) of this report, laws enacted or adopted since Paul Black acquired the subject property restrict the claimants' desired use of the property. The claimants estimate that the effect of the regulations on the fair market value of the subject property is a reduction of \$4 million.

Without an appraisal or other documentation, it is not possible to substantiate the specific dollar amount by which the land use regulations have reduced the fair market value of the subject property. Nevertheless, based on the evidence in the record for this claim, the department determines that the fair market value of the subject property has been reduced to some extent as a result of land use regulations enforced by the Commission or the department since Paul Black acquired the property.

#### **4. Exemptions Under ORS 197.352(3)**

ORS 197.352 does not apply to certain land use regulations. In addition, under ORS 197.352(3), certain types of laws are exempt from ORS 197.352.

#### **Findings of Fact**

The claim is based on state land use regulations that restrict the use of the subject property, including applicable provisions of Goals 3 and 4, ORS 215 and OAR 660, division 6, and 33, which Curry County has implemented through its current FG zone. With the exception of Goals 3 and 4 and ORS 215 in effect on March 13, 1981, these land use regulations were enacted or adopted after Paul Black acquired the subject property.

#### **Conclusions**

Without a specific development proposal for the subject property, it is not possible for the department to determine all the laws that may apply to a particular use of the property, or whether those laws may fall under one or more of the exemptions under ORS 197.352. With the exception of Goals 3 and 4, and ORS 215 and OAR 660, division 6, and 33, it appears that the general statutory, goal and rule restrictions on residential division and development of the subject property were not in effect when Paul Black acquired the property.

### **VI. FORM OF RELIEF**

ORS 197.352(1) provides for payment of compensation to an owner of private real property if the Commission or the department has enforced one or more laws that restrict the use of the property in a manner that reduces its fair market value. In lieu of compensation, the department may choose to not apply the law in order to allow the present owner to carry out a use of the property permitted at the time the present owner acquired the property. The Commission, by rule, has directed that if the department determines a claim is valid, the Director of the department must provide only non-monetary relief unless and until funds are appropriated by the legislature to pay claims.

#### **Findings of Fact**

Based on the findings and conclusions set forth in this report, laws enforced by the Commission or the department restrict the claimants' desired use of the subject property. The claim asserts that existing state land use regulations enforced by the Commission or the department have the effect of reducing the fair market value of the subject property by \$4 million. However, because the claim does not provide an appraisal or other relevant evidence demonstrating that the land use regulations described in Section V.(2) reduce the fair market value of the subject property, a specific amount of compensation cannot be determined. In order to determine a specific amount of compensation due for this claim, it would also be necessary to verify whether or the extent to which the claimants' desired use of the subject property was allowed under the standards in effect when Paul Black acquired the property. Nevertheless, based on the record for this claim, the department has determined that the laws on which the claim is based have reduced the fair market value of the subject property to some extent.

No funds have been appropriated at this time for the payment of claims. In lieu of payment of compensation, ORS 197.352 authorizes the department to modify, remove or not apply all or parts of certain land use regulations to allow Paul Black to use the subject property for a use permitted at the time he acquired the property on March 13, 1981, and to allow Dawn Black to use the property for a use permitted at the time she acquired the property on March 24, 2005.

At the time Dawn Black acquired an interest in the subject property, it was zoned Forestry Grazing (FG) and subject to the current lot size and dwelling standards of Goals 3 or 4, ORS 215 and OAR 660, divisions 6, or 33, as described in Section V.(2) of this report.

In addition to the applicable provisions of Goals 3 and 4, ORS 215 and OAR 660, divisions 6, and 33, in effect when Dawn Black acquired the property on March 24, 2005, and other laws in effect when either of the claimants acquired the subject property, there may be other laws that apply to the claimants' use of the property that have not been identified in the claim. In some cases, it will not be possible to know which laws apply to a use of the subject property until there is a specific proposal for that use. When the claimants seek a building or development permit to carry out a specific use, it may become evident that other state laws apply to that use, and depending on when they were enacted or adopted, may continue to apply to the claimants' property. In addition, some of these laws may be exempt under ORS 197.352(3)(A) to (D) and will continue to apply to the subject property on that basis.

The department notes that ORS 215.730 and OAR 660, division 6, particularly OAR 660-006-0027, -0029 and -0035, include fire protection standards for dwellings and structures in forest and mixed agriculture-forest zones. ORS 197.352 (3)(B) specifically exempts regulations "restricting or prohibiting activities for the protection of public health and safety, such as fire and building codes. . . ." Accordingly, the siting standards for dwellings and structures in forest zones in ORS 215.730 and in forest and mixed agriculture-forest zones in OAR 660, division 6, are exempt under ORS 197.352(3)(B). In addition, Curry County notes that a portion of the property is located in a flood plain zone. ORS 197.352(3)(B) specifically exempts regulations "restricting or prohibiting activities for the protection of public health and safety. . . ." To the extent the county's flood plain regulations are based on state law, these regulations would be exempt under ORS 197.352(3)(B).

This report addresses only those state laws that are identified in the claim, or that the department is certain apply to the subject property based on the uses that the claimants have identified. Similarly, this report only addresses the exemptions provided for under ORS 197.352(3) that are clearly applicable given the information provided to the department in the claim. The claimants should be aware that the less information they have provided to the department in their claim, the greater the possibility that there may be additional laws that will later be determined to continue to apply to their use of the subject property.

### **Conclusions**

Based on the record, the department recommends that the claim be approved, subject to the following terms:

1. In lieu of compensation under ORS 197.352, the State of Oregon will not apply the following laws to Paul and Dawn Black's division of the 12-acre subject property into one-acre or larger

parcels or to their development of a dwelling on each parcel: applicable provisions of Goals 3 and 4, ORS 215 and OAR 660, divisions 6, and 33, enacted or adopted after each claimant acquired the subject property. These land use regulations will not apply to the claimants only to the extent necessary to allow them to use the subject property for the use described in this report, and only to the extent that use was permitted when Paul Black acquired the property on March 13, 1981, and when Dawn Black acquired the property on March 24, 2005. The department acknowledges that the relief to which Dawn Black is entitled under ORS 197.352 will not allow her to use the subject property in the manner set forth in the claim.

2. The action by the State of Oregon provides the state's authorization to the claimants to use the subject property for the use described in this report, subject to the standards in effect when Paul Black acquired the property on March 13, 1981, and when Dawn Black acquired the property on March 24, 2005. On March 13, 1981, the property was subject to applicable provisions of Goal 3 or 4 and ORS 215 then in effect. On March 24, 2005, the property was subject to the applicable provisions of Goals 3 and 4, ORS 215 and OAR 660, divisions 6, and 33, currently in effect.

3. To the extent that any law, order, deed, agreement or other legally enforceable public or private requirement provides that the subject property may not be used without a permit, license or other form of authorization or consent, the order will not authorize the use of the property unless the claimants first obtain that permit, license or other form of authorization or consent. Such requirements may include, but are not limited to: a building permit, a land use decision, a "permit" as defined in ORS 215.402 or 227.160, other permits or authorizations from local, state or federal agencies and restrictions on the use of the subject property imposed by private parties.

4. Any use of the subject property by the claimants under the terms of the order will remain subject to the following laws: (a) those laws not specified in (1) above; (b) any laws enacted or enforced by a public entity other than the Commission or the department and (c) those laws not subject to ORS 197.352 including, without limitation, those laws exempted under ORS 197.352(3).

5. Without limiting the generality of the foregoing terms and conditions, in order for the claimants to use the subject property, it may be necessary for them to obtain a decision under ORS 197.352 from a city and/or county and/or metropolitan service district that enforces land use regulations applicable to the property. Nothing in this order relieves the claimants from the necessity of obtaining a decision under ORS 197.352 from a local public entity that has jurisdiction to enforce a land use regulation applicable to a use of the subject property by the claimants.

6. Nothing in this report or the state's final order for this claim constitutes any determination of ownership by the State of Oregon as to submerged or submersible lands, or as to public rights to the use of waters of the state.

## **VII. COMMENTS ON THE DRAFT STAFF REPORT**

The department issued its draft staff report on this claim on August 22, 2007. OAR 125-145 0100(3), provided an opportunity for the claimants or the claimants' authorized agent and any third parties who submitted comments under OAR 125-145-0080 to submit written comments,

evidence and information in response to the draft staff report and recommendation. Comments received have been taken into account by the department in the issuance of this final report.
