### Energy medicine devices

The OBCE receives periodic inquiries regarding so-called “energy” medicine devices which purport to use: “quantum mechanics” or “quantum biofeedback” or “nano-technology” or claims in any way to have thousands of “preprogrammed scenarios and library references organized into defined groups, which create quick and manageable patient assessments.”

These are presumed to be outside the Oregon chiropractic scope of practice until such time the specific device is reviewed by the OBCE under the provisions of OAR 811-015-0070 (ETS DP rule) and determined to be either standard or investigational.

This includes the “Zyto” device, Quantum QXCI Bio-Resonance Device, and any other devices which are similar in operation to the EPFX-SCIO device (which was previously evaluated and found to be unacceptable).
