Subject: No on Unnecessary Forested Stream Buffers

Dear Chair Imeson,

I write to you on behalf of the Oregon Cattlemen's Association asking you to oppose the proposed stream buffers.

Implementing these buffers would have a significant impact on people who own forested lands in Western Oregon. To put in even a 70 ft. no-cut buffer on only streams containing salmon, steelhead, and bull trout would cost landowners in excess of \$100 million.

This additional buffer is unnecessary and will hurt Oregonians. Please say no to adding additional no-cut buffers.

Sincerely,

Jerome Rosa
