# Severity (SPA)

## Additional Contracted Resources:

- **Type 3 Helicopters- Helitack**
- **Additional Single Engine Air Tankers**
- **Additional Air Attack Platforms (ATGS)**
- **Industrial/Contractor/Fire department- 'Surge' Capacity**

# Scalable Severity

	Funding	Timing
<b>Severity</b> Surge Capacity using Contractors Type 3 Helicopters Additional Single-Engine Air Tankers (SEATS) Air-Attack Platforms		

# ***Work Group Next Steps?***

- **Fully vet and develop pricing for the FTE needed capacity.**
- **Develop a funding proposal for a adequate training fund.**
- **Develop a funding equipment and technology proposal.**
- **Fully vet and develop pricing for a scalable severity increase at three levels.**
- **Develop a refined priority list for the business and administrative work.**

# Input and questions

- **Knowing the charge of the work group, what ideas resonate with the committee?**
- **What rises to the top as the best way to create sustainability?**
- **What will gain traction in the legislative process and what are the barriers?**
- **What is the groups thoughts on an additional severity investment above a POP's investment?**
