

## Online Payment Notice

July 23, 2015

Effective July 1, 2015, ODOT's Fuels Tax Group (FTG) implemented the [Oregon Fuels Tax System](#) (FTS), a secure website that allows businesses and individuals who need to conduct business with the FTG to do so electronically.

Everyone is not required to use the FTS to conduct business with the FTG, however, Oregon Administrative Rules [735-170-0020](#) (4) (a) does require those whose reports and required schedules have 100 or more transactions to file their reports electronically, using the on-line system. FTG is pleased to have U.S. Bank host the on-line payments using their E-Payment Service. This allows customers to be able to make payments without transmitting confidential information and uses the security of one of the nation's largest banks. The E-payment service is an ACH debit system that gives customers the option to manually enter the necessary information to make a one-time payment, or to register with U.S. Bank to set up one-time or recurring payments without having to enter the information each time a payment is necessary.

FTG knows the new system will require business changes for some of you. If we can assist you, please let us know.
