

Warranty Acceptance Statement

I certify that we have reviewed the Oregon Department of Transportation (ODOT) Specifications for:

Longitudinal Pavement Markings – High Performance

We understand that these specifications require the manufacturer to warrant the performance of marking materials and that approving these Specifications is critical for our product to be used in Oregon. Failure to comply with warranty repairs in a timely manner will at least result in removal from the Qualified Products List (QPL).

We further understand that these Specifications may change over time and that it is our responsibility to watch the Specifications on each project to ensure that we can still support the requirements. <http://www.oregon.gov/ODOT/HWY/SPECS/index.shtml>

Product Name: _____

Yes, we can support the specifications for High Performance Longitudinal Pavement Marking applications.

No, we can not support these specifications for High Performance Longitudinal Pavement Marking applications.
