

Soil and Rock Classification and Logging

4.1 General

The ODOT Soil and Rock Classification Manual (1987) should be used for the description and classification of all soil and rock materials. This manual is available on the Geo-Environmental web page at the following address:

[Soil_Rock_Classification_Manual.pdf on ftp.odot.state.or.us](ftp://ftp.odot.state.or.us/Soil_Rock_Classification_Manual.pdf)
