

Project Elements for Near-Term Solution

- Re-align right turn lane - referred to as a “slip lane” - at I-5 southbound off-ramp (Exit 302 A) at Broadway (an element of N/NE Quadrant Plan).
- Install Pedestrian Hybrid Beacon at existing crosswalk at streetcar platform on Broadway between Ross and Wheeler.
- Replace outdated traffic signal at intersection of Broadway, I-5 off-ramp and Vancouver Avenue.
- Extend curb on southeast corner of intersection of Broadway and Wheeler.
- Reconnect the sidewalk due to the ramp realignment on the north side of Broadway from the I-5 off-ramp to Flint.
- Install ADA accessible curb ramps at the intersection of Broadway and Vancouver and at other locations within the project area.
