

Traffic Advisory

Hood River Bridge Set for Nightly Closings

The Port of Hood River plans to close the Hood River Bridge Monday through Thursday from 9:30 p.m. until 5 a.m., beginning Monday, Oct. 23.

The bridge closures will last for about one month. Additional closures may occur on an intermittent basis after the first month of work.

Emergency vehicles will be allowed to cross the Hood River Bridge at all times. Motorists heading for Washington State are advised to use the Bridge of the Gods or The Dalles Bridge.

The Hood River Bridge closures will allow contractor Wildish Standard Paving Co. to work on the Port of Hood River's Interstate Toll Facility Improvement Project.

Bridge closures and delays are posted on the Port's Web site — www.portofhoodriver.com — by clicking on the "Bridge Update" link. To e-mail comments or information to the Port of Hood River: porthr@gorge.net.
