

Highway 99E south of 2nd Street to near MP 13.8

South from the 2nd Street intersection, ODOT will construct a continuous left-turn lane. When the left-turn lane is constructed, there will be only one southbound travel lane and one northbound travel lane.

Proposed Hwy 99E Striping

Highway 99E north of South End Road

North of the South End Road intersection, ODOT will extend the left-turn lane approximately 1/3 of a mile. Adding the left turn median requires removing one southbound travel lane, leaving two northbound travel lanes and one southbound travel lane.
