BACKGROUND/REFERENCE

District offices have not been consistent in their processes for handling a deposit in lieu of a bond for a Permit to Construct a temporary approach. This lack of consistency has resulted in non-compliance with ODOT financial standards and customer service problems. This Bulletin provides the needed clarification to improve consistency and customer service.

EXPLANATION

OAR 734-051-4040(2) states as follows: "A deposit of not less than \$1000 per temporary approach is required prior to issuance of a Construction Permit and a Permit to Operate a Temporary Approach to guarantee its removal by the applicant, pursuant to subsections (a) through (c) below:

- (a) The appropriate District office will determine the amount of the deposit;
- (b) If the Department incurs no expense in the removal of the temporary approach, the entire deposit is refunded to the applicant; and
- (c) If the Department incurs any expenses in the removal of the approach, the applicant will be billed for the amount in excess of the amount deposited or refunded the difference if the expense is less than the amount deposited.”
