ASTM LEARNING CENTER MODULES

Included In Your Transportation Package

Construction Materials Technician Series

QA/QC technicians will advance their skills using industry leading, self-guided, computer-based training.

The series is ideal for those preparing to become certified testing technicians through the American Concrete Institute (ACI), National Institute for Certification in Engineering Technologies (NICET), or a state agency such as the Department of Transportation.

Advanced features enable managers to develop learning plans, run reports, track learning progress and measure compliance.

Modules Cover

Concrete Field Testing
Concrete Strength Testing

Aggregate Testing Training
Aggregate Base Testing

Cement Testing
Self-Consolidating Concrete Testing
