OREGON WATERSHED ENHANCEMENT BOARD

OWEB

In Memory of Roger Wood

This revised version of the aerial photograph atlas of the Willamette Floodplain came from the fertile imagination of Roger Wood. Roger was the energy and imagination behind the Oregon Watershed Enhancement Board Special Investment Partnership for the Willamette River. He envisioned the need to “see the river” not how it has historically been represented but how it now is. The revised atlas is the result of Roger’s efforts and desire to share the Willamette River with the people of Oregon. Roger died unexpectedly before he could see the final form. This atlas is dedicated to the memory of Roger Wood and to the people that wish to make the Willamette River better for their children.

ABOUT THIS ATLAS

The purpose of this atlas is to assist the State of Oregon's natural resource agencies with their missions associated with the Willamette River.

These missions include:

- Providing and protecting outstanding natural, scenic, cultural, historic and recreational sites for the enjoyment and education of present and future generations
- Helping create and maintain healthy watersheds and natural habitats that support thriving communities and strong economies
- Protecting and enhancing Oregon's fish and wildlife and their habitats for use and enjoyment by present and future generations
- Ensuring a legacy for Oregonians and their public schools through sound stewardship of lands, wetlands, waterways, unclaimed property, estates and the Common School Fund
- Practicing and promoting responsible water management by addressing Oregon's water supply needs, and the restoration and protection of streamflows and watersheds in order to ensure the long-term sustainability of Oregon's ecosystems, economy, and quality of life

Disclaimer:

This product is for informational purposes and may not have been prepared for, or be suitable for legal, engineering, or surveying purposes. Users of this information should review or consult the primary data and information sources to ascertain the usability of the information.

The identification of DSL as owner of "Other Public Lands" is from County tax assessor records and does not necessarily reflect a claim of ownership by the state of Oregon.
