

Email sent to PRISM partners on 11/17/08

Hello PRISM partners,

We are making much needed changes with the PRISM CIP_CODE validation process. As of November 21, 2008, the CIP_CODE field will no longer be validated against the PRISM CIP code table. As a result of the change, this will eliminate most of the CIP Code errors we have been experiencing for those partners who are using the newer coding system for CIP.

If you have any questions, please contact Becky Rogers @ (503) 947-1626.

Regards,
John Glen
