

# OREGON YOUTH CONSERVATION CORPS

Annual Report 2011-2012

# Corpsmember Insights

Clackamas County

“This is a really good opportunity to realize how it is to work.”

“This program makes you a better person and a better worker. It pushes your limits and helps you go for gold when it comes to getting the job done.”

“The program allowed me to make an impact on my local environment and I gained a love for hiking and spending time in the woods.”

“Not only do you gain skills to help get a job, but you have a good time, make money and earn credits.”

“OYCC is an excellent opportunity to develop leadership skills, learn how to work in a team environment, to better your sense of responsibility and you get to work outdoors.”

# Message from OYCC

*We are excited to present the Oregon Youth Conservation Corps' (OYCC) 2011-2012 Annual Report. This report highlights the achievements and successes from the summer of 2012 and the 2011-2012 school year programs. Each year the funding becomes tighter, partnerships increase and the programs become more creative.*

*OYCC is a program within the Oregon Department of Community Colleges and Workforce Development (CCWD). OYCC provides grants to local providers to run youth programs across the state serving individuals between the ages of 13 and 25. There are two main programs: the Summer Conservation Corps (SCC) and the Community Stewardship Corps (CSC). SCC programs are typically 6-8 week long summer work programs. CSC school year programs incorporate hands-on field projects with traditional classroom learning. Other programs administered by OYCC include the Youth River Stewards, Employment and Education Partnership, Oregon Youth Employment Initiative and specific grants with funding provided by the Oregon State Marine Board. All six of these programs are highlighted in this report.*

*Along with grants, OYCC provides Crew Leader training with modules specific to the different types of OYCC grants. OYCC also serves as a valuable resource for program development, technical assistance and networking with other youth programs.*

*OYCC is funded primarily through Oregon's Amusement Device Tax via the Oregon Lottery. Additional state funds come from the Oregon State Marine Board (OSMB). OYCC also receives federal funds through the US Forest Service and the Bureau of Land Management (BLM).*

*We hope you enjoy this year's Annual Report!*

*Doug Denning  
OYCC Program Administrator*

*Jennifer Denning  
OYCC Office Administrator*

“This program strengthens your ability to work together and have pride in what you do.”

“It is a great way to be part of a team and have summer employment.”

“It’s a great way to learn how to work in landscaping.”

# Executive Summary

The Oregon Youth Conservation Corps (OYCC) was created by the 1987 Oregon Legislature to emulate the Civilian Conservation Corps of the 1930's.

OYCC builds on the strong connections between positive work experiences, work skills, personal responsibility, commitment to education, and future employment for Oregon's youth.

The purpose of the Oregon Youth Conservation Corps (OYCC) as stated in ORS 418.650 to 418.663 is:

- To establish a disadvantaged and at-risk youth work program in order to perform conservation work of public value in the most cost effective manner
- To utilize such a program as a means of needed assistance to protect, conserve, rehabilitate and improve the natural, historical and cultural resources of the state
- To utilize such a program to increase education, training and employment opportunities for disadvantaged and at-risk youth for the purpose of improving work skills, instilling the work ethic and increasing employability

Participants must be Oregon residents and 75% of participants must meet the disadvantaged and at-risk requirement:

**"Youth at-risk and disadvantaged are those who may be unable to achieve the educational, economic, or social expectations of their community."**

"This program is a great way to be part of a team and have summer employment."

"Great opportunities to advance your knowledge in team working and problem solving."

"This is a great opportunity to learn and experience what it's like to work in a garden."

# Summer Conservation Corps

The Summer Conservation Corps (SCC) is OYCC's largest state funded program, with the goal of having a local program in each of Oregon's 36 counties. OYCC provides funding for work crews throughout Oregon to complete projects such as trail construction and maintenance, landscaping, planting, wetlands/bank/stream restoration, invasive species (weed) removal, construction, gardening and greenhouse projects.

OYCC and the Department of Community Colleges and Workforce Development provide program standards, funding, training, technical assistance, program evaluation and monitoring. Additionally, OYCC coordinates and assists in developing educational, service and work projects for the Summer Conservation Corps programs.

The demographics for the 2012 Summer Conservation Corps were:

- 35% female, 65% male
- 72% Caucasian, 19% Hispanic, 4% Native American/Alaskan Native, 3% African American, 2% Asian/Pacific Islander, and 0% other

Crook County

“This program will teach you tool safety, how to work as a team, and definitely teaches you what work is.”

# Summer 2012 Highlights

- 492 youth were accepted out of 1,200 applicants
- 11 youth served as youth Crew Leaders
- \$1.2 million obtained as match at the local level
- 118,622 project work hours completed
- 17.68% of youth have previous or current involvement in the juvenile justice system

\$915,708  
Corpsmember  
wages were paid.

Crew Leaders are an invaluable part of the OYCC crew experience. They are a leader, teacher, role model and are admired and respected by their crew. Crew Leaders help youth gain valuable workforce skills that will stay with them for a lifetime. Crew Leaders report that because of the OYCC experience:

- 97.4% of the Corpsmembers can work as part of a team
- 97.8% of the Corpsmembers have increased their awareness of safe work habits
- 93.9% of the Corpsmembers have more confidence in themselves

Corpsmembers report that because of the OYCC experience:

- 98.3% can take responsibility for their actions
- 97.8% have the knowledge and skills to search for and obtain a job
- 95.6% have an interest in furthering their education

*“This program teaches you how to push your limits and really shows you what hard work is.”*

# Oregon State Marine Board Project

Through a Cooperative Agreement the Oregon State Marine Board provided \$55,000 to OYCC for grants during the summer of 2012. This funding is derived from state marine fuel taxes and is to be used for projects that enhance motorized public boating related areas.

One of the programs that received a Marine Board grant this summer was Lane Metro Youth Corps in Eugene. With help from this grant, six youth and four Crew Leaders were hired to help improve Clearwater Park in Springfield. The crew installed a Bioswale (pictured below) along the newly installed boat ramp. A Bioswale is a landscape design intended to trap pollutants from runoff water to prevent them from entering the watershed and/or drain systems.

# Community Stewardship Corps

The Community Stewardship Corps (CSC) is comprised of innovative, community-focused alternative education programs. OYCC partners with 24 alternative education programs statewide. Youth gain valuable education, employment and leadership skills while learning work ethic and environmental knowledge through integrated classroom and field-based learning projects.

Successful CSC programs involve a collaboration of many community organizations. The program is usually a school district, alternative school, education service district or a Workforce Investment Act (WIA) provider. It is essential that programs be connected to the school system and that a method for awarding credit or earning a GED is in place.

Crew activities include natural resource projects such as: trail construction and maintenance, invasive species and noxious weed removal, riparian and wetlands restoration, construction and cultivation of native plant stock. Corpsmembers also participate in projects such as GIS and GPS mapping and surveying, water/soil sampling and monitoring.

Other community-based activities include volunteering in programs such as SMART (Start Making a Reader Today), Meals on Wheels, providing firewood for the elderly, SOLVE (Stop Oregon Litter and Vandalism), local food banks, community gardens, recycling and renovation projects.

“It’s a great opportunity to learn skills that will allow me to gain employment after graduating.”

“This program was great for helping me get my diploma.”

“You get to help your community as a respected person.”

# Education Goals for Oregonians

The 2011 Oregon Legislature addressed the significant role education plays in the lives and futures of Oregonians with the passage of SB 253. This piece of legislation established the most aggressive educational completion goals of any state in the nation: by 2025 every Oregon student must earn a high school diploma and 80 percent must continue their education beyond high school- with half earning an associate's degree or certificate and half achieving a bachelor's degree or more. This has come to be known as the "40/40/20" goal.

OYCC participants are on their way to reaching these goals by earning the credit they need to graduate and move toward further education.

During the 2011-12 school year:

- 1,996 high school credits were earned
- 83 diplomas were awarded
- 35 GEDs were awarded
- 290,130 hours of classroom and field instruction were completed
- \$150,919 in scholarships were awarded

Since 1992, OYCC has awarded over \$2.4 million in scholarships.

During the 2011-12 school year, OYCC programs had 704 applicants for 557 positions. Of those accepted into the program, 35.19% have previous or current involvement in the juvenile justice system.

The demographics of those students accepted were:

- 30% female and 70% male
- 76% Caucasian, 14% Hispanic, 4% African American, 5% Native American/Alaskan Native, 1% Asian/Pacific Islander and 0% other

# Oregon Youth Employment Initiative (OYEI)

In 2009, the US Forest Service (USFS) granted OYCC, through the Department of Community Colleges and Workforce Development (CCWD), \$9.627 million of American Recovery and Reinvestment Act (ARRA) funding for the creation of the OYEI.

OYEI was a youth employment initiative for individuals ages 15-24. Projects had to fall within the scope of natural resource and conservation education. OYEI was administered by OYCC/CCWD and overseen by the OYEI Advisory and Oversight Committee which include representatives from: USFS, Oregon Governor's Office, Association of Oregon Counties, Oregon Department of Education and Business Education Compact.

During the summer of 2012, the last six grants were awarded for projects specific to the Mt. Hood National Forest. This marked the end of an ambitious program that gave thousands of youth and their families hope during the economic crisis.

As of December 31, 2012, OYCC/CCWD had awarded 297 individual grants to local and regional providers. OYEI funds hired over 4,000 youth and supporting adults, exposed over 25,000 middle/high school students to green issues, recycling and sustainability and had a positive economic effect on every county in Oregon. OYCC is proud to announce that \$6.828 million was paid in wages!

Additional information and data is available at: [www.odccwd.state.or.us/oyei/](http://www.odccwd.state.or.us/oyei/).

# Youth River Stewards

The Youth River Stewards program is a collaborative effort between OYCC, Youth Corps, Inc. and Oregon Parks and Recreation Department. It introduces Community Stewardship Corps students to the needs of Oregon's rivers with three day/two night canoe trips on the Willamette River. The goal of the program is to provide insight and education, as well as a sense of ownership and to instill a lifetime of commitment to Oregon's rivers. Program participants also gain exposure to natural resource career opportunities.

This year OYCC contracted with Educational Recreational Adventures (ERA) to provide the education component of this program. In the fall of 2012, three lucky programs were given the opportunity to participate in this adventure. The programs were taught using the full river curriculum ERA developed specifically for this program. Some of the topics discussed include: identifying bird species, the history and importance of the Willamette River Highway, the Missoula Floods, geology, harvesting Wapato and learning how to throw Atlatl Darts and shoot a bow and arrow.

These trips continue to serve as an excellent example of how experiential learning and a natural resources curriculum motivate and captivate students.

Clackamas County

*"I learned so much from this trip  
and will always remember it."*

# Bureau of Land Management (BLM)

The BLM/OYCC Employment and Education Partnership is a Cooperative Agreement between OYCC/CCWD and the BLM.

BLM Districts determine the location and types of projects to fund and then notifies OYCC of the opportunity. OYCC posts these opportunities on its website soliciting applications. Interested youth corps providers apply for grant funds to complete the posted projects. The BLM makes the final selection of who is awarded a grant.

Youth must be between the ages of 15 and 24 to participate. All youth must work a minimum of 80 hours each under this agreement to be counted as a youth hired at the Federal level. There is a minimum 25% matching requirement. Regular OYCC funds may be used as match.

Since 2010, OYCC has awarded over \$500,000 in BLM funds. These funds have employed 261 youth and supporting adults, logged 24,973.68 project hours and paid \$219,190 in wages.
