

**OREGON BOARD OF DENTISTRY
GENERAL INFORMATION AND INSTRUCTION SHEET**

DENTAL

LICENSURE WITHOUT FURTHER EXAMINATION

Introduction:

These instructions are designed to assist you in the application process for dental licensure in Oregon. Please read and follow them carefully. A checklist format has been used to assist you in requesting documentation and to ensure you meet all application requirements.

There are two methods of licensure in Oregon:

1. Licensure by Examination

Dentists are eligible to apply for licensure by examination in Oregon within five (5) years of passage of any clinical Board examination administered by any state or regional testing agency.

Dentists who have graduated from a dental program located outside the United States or Canada must also meet additional education requirements. See item "H" on the checklist.

2. Licensure Without Further Examination

Dentists are eligible to apply for licensure without further examination if they hold an active dental license in another state, and if they have taken and passed the dental clinical examination conducted by any state or regional testing agency, in addition to meeting the requirements set forth in ORS 679.060 and 679.065. The applicant must verify to having 3,500 hours of licensed clinical practice in the past five years in other states, in Oregon, or in the Armed Forces of the United States, the United States Public Health Service or the United States Department of Veterans Affairs. If in the military, the applicant must have a letter submitted to the Board from the commanding officer outlining duties, length of service and whether any adverse actions have been reported or taken. In addition, the applicant must also verify to having completed 40 hours of continuing education in accordance with 818-021-0060 within two years immediately preceding submission of their application.

Dentists who have graduated from a dental program located outside the United States or Canada must also meet additional education requirements for Oregon. See item "H" on the checklist.

A dental license granted under 818-021-0011 will be the same as the license held in another state; i.e., if the dentist holds a general dentistry license, the Oregon Board will issue a general (unlimited) dentistry license. If the dentist holds a license limited to the practice of a specialty, the Oregon Board will issue a license limited to the practice of that specialty. If the dentist holds more than one license, the Oregon Board will issue a dental license which is least restrictive.

INFORMATION REQUESTED

The 2001 Legislature passed Senate Bill 786 (ORS 676.400), which requires that health professional regulatory boards maintain information regarding racial, ethnic and bilingual status of licensees and applicants and report to the data to the Legislature.

This law was the result of a study performed by the Governor’s Racial and Ethnic Health Task Force, which determined that access to health care by racial and ethnic minorities is inadequate to address the chronic health issues these communities face. People of color and people with native languages other than English experience extreme difficulty accessing health services. Culturally competent health care providers are critical in providing appropriate health care and the collection of the information requested below will assist decision makers in developing programs to address the disparity in access to health care experienced by various communities.

See the reverse of this page for racial and ethnic definitions from the State of Oregon employment documents and the US Census Bureau.

Provision of this information is voluntary. If you choose not to provide the information, it will have no effect on the acceptance or processing of your application or renewal.
