ASSOCIATION REPORTS

Oregon Dental Association

Janet Peterson, D.M.D., introduced the ODA's new Vice President, Westin Heringer, Jr., D.M.D. She said that she has been impressed by the work of the Board during her year as ODA Vice President. Dr. Peterson said Barry Taylor, D.M.D., has been working with the Academy of General Dentistry to re-establish the defunct Mentoring Project, and will bring recommendations to the Board's Enforcement and Discipline Committee. She asked if the Board had been in contact with Law and CPA associations to remind them of the Board's rules regarding ownership. Mr. Braatz said these communications are in process.

Dr. Martin asked if the ODA had heard from its members regarding ownership. Beryl Fletcher, ODA Director of Professional Affairs, said there will be an article in the forthcoming Membership Matters, and that the ODA sent a letter addressing the newly enacted Senate Bill 390 to its membership 3-4 weeks ago. The ODA has not had a significant response to the letter.

Oregon Dental Hygienists Association

Lynn Ironside, R.D.H., announced the 2003 ODHA House of Delegates November 14 and 15 at the Doubletree Hotel in Springfield, Oregon, as well as an LAP Continuing Education Weekend September 26 and 27 at the Embarcadero in Newport, Oregon. Ms. Ironside said the weekend will be devoted solely to LAP courses and will feature Gary Allen, D.M.D., as a keynote speaker.

EXECUTIVE DIRECTOR'S REPORT

Mr. Braatz thanked the Board for welcoming him to Oregon. He said that he was pleased to have the opportunity to work with Ms. Bones over the past few weeks, and was impressed with the Board's staff. He provided an update of his activities since his August 4, 2003 instatement as Executive Director. He has:

- Begun the process to review and update the Board's Policies and will present proposed changes to the Board in the coming months.
- Initiated weekly informal staff meetings.
- Initiated Investigative staff meetings at least once every six weeks.
- Contacted all Board Committee Chairs to begin the process of holding meetings for those committees that have items to review and make recommendations to the Board.
- Met with the Board's Legal Counsel to be brought up to date on pending issues.
- Met via telephone with the Board's IT contractor to begin the process of purchasing and upgrading the Board's computer system per the approved budget.
- Begun work on a special letter/notice to all Licensees regarding the Anesthesia rule changes.
- Met with the Administrator of Public Health Systems of the Oregon Department of Human Services (ODHS) regarding the updating of the Memo of Understanding

between the Board and ODHS regarding training and certification of dental assistants to take radiographs in the dental office and the updating of the curriculum.

Budget Report

A report showing expenditures and revenue through June 30, 2003 was provided for Board review. Mr. Braatz said that revenues and expenditures are on track.

2003 Legislative Session

Mr. Braatz said that the Legislature adjourned Sine Die after holding the longest session in Oregon history. He said no additional legislation affecting the Board appears to have been passed since the Legislative Report provided at the July 25, 2003 meeting.

Administrative Rules

Mr. Braatz said the Board approved the revisions to the Anesthesia Rules at its last meeting in July. The revised rules will be published in the Oregon Bulletin, with an effective date of October 1, 2003.

Minor Office Remodeling

Mr. Braatz said that the minor office remodeling reported at the July Board meeting has been completed. He said he is also looking into acquiring additional storage space for files and records so the Board's consultants can utilize that space. He said this would also create more space in the Board Room for meetings and interviews.

Oregon Board of Dentistry Committee and Liaison Assignments

A list of Committee and Liaison Assignments for the period April 2003 to March 2004 was provided for Board review. Mr. Braatz said the Board might want to discuss meeting dates for the next few months.

- Rules Oversight Committee
Allow dentists to administer local anesthetic to the lip area for the purposes of hair removal by licensed electrologists.
- Dental Hygiene Committee
House Bill 3157 allows education hours to be obtained from programs accredited for other health professional programs in addition to CODA, modifies the list of required courses to allow flexibility in coursework to reflect expanded sites at which LAPs may work, and adds a new section that provides that dental hygienists and dental assistants may perform oral health screenings and report the results to the parents or guardians of minors needing dental referral for diagnosis. The committee will need to work on developing training and screening protocols.
- Anesthesia Committee
Develop a statement on multidisciplinary pain management as required by the newly enacted Senate Bill 434.
- Licensing, Standards and Competency Committee
Discuss housekeeping and minor program changes established by House Bill 5026. The committee may also review the Board's Infection Control Guidelines as well as Continuing Education requirements for retired dentists.

Dr. Johnson moved, and Dr. Grant seconded, that the Board wait to determine final meeting dates until the end of the meeting. The motion passed with Dr. McCully, Dr. Grant, Dr. Johnson, Ms. Lee, Dr. Martin, Dr. Nichols, Ms. Potts, and Mr. Swart voting aye.

Mr. Braatz noted that WREB has requested the Board's Examiner assignments for the coming year.

Oregon Board of Dentistry Web Site

Mr. Braatz said the Board might want to discuss potential updates and changes to the Board's web site that will enhance public communication and reduce staff time answering general and routine questions. He said he is working with the Board's IT contractor to develop a search engine for the Licensee Lookup that would replace the current alphabetical listing.

Mr. Braatz said that in the past two weeks, Board staff fielded 225 telephone calls related to licensure verifications that included the question of whether a dentist had been disciplined. He said in his experience, most organizations include some notation, usually "Y" or "N," regarding disciplinary actions on their web sites. Currently, the Board's web site receives some 15-20,000 hits per month. He asked the Board to consider including "Y" or "N" indications regarding disciplinary actions on its web site for a six-month trial, during which staff time providing verifications over the phone as well as the number of hits to the web site could be measured. He said that in order to minimize the cost of the change, it would be done in concert with other scheduled fixes and upgrades to the system.

Mr. Swart moved, and Dr. Martin seconded, that the Board authorize staff to move forward with the two web site initiatives.

Dr. McCully said the Communications Committee has discussed the placement of disciplinary information on the Board's web site in the past. He was opposed to it then and is opposed to it now. He said his concern is that disciplinary action does not necessarily denote quality-of-care issues. He also said that a six-month trial period is not realistic, in his opinion, and once that information is made available to the public, it cannot then be made unavailable.

The Board discussed the possibility of denoting different levels or varieties of disciplinary action. Dr. Grant pointed out that in so doing, the Board runs the risk of placing a value judgment on a practitioner. After further discussion, the Board agreed that defining different levels of discipline is not an option. If the information is made available to the public, it should either be restricted to a "Y" or "N" format, or the Board actions themselves should be available for viewing and downloading.

There was some discussion about ease of access to the information for the public. Mr. Swart said consumers should not go through a "gatekeeper" to gain access to the information. Dr. Martin said she seconded the motion because she feels the intention of the statute is that the information should be accessible and available to the public. Because the technology to do so exists, the Board has the responsibility to use it.

Mr. Swart moved, and Dr. Martin seconded, that the Board instruct its Executive Director to move ahead with the initiative to place all public information generated by the Board office on its web site, including Board actions, and to eliminate the six-month trial period. The motion passed with Dr. Grant, Ms. Lee, Dr. Martin, Dr. Nichols, Ms. Potts, and Mr. Swart voting aye. Dr. McCully and Dr. Johnson voted no.

Oregon Board of Dentistry Newsletter

Mr. Braatz asked the Board for input regarding the Newsletter, specifically in the area of publishing disciplinary actions. He queried the Board as to why the names of Licensees are not reported along with the disciplinary actions published in the Board's Newsletter. Ms. Lee and Dr. McCully explained that the intent of publishing the actions is not punitive, but rather educational, and pointed out that readers of the Newsletter are much more likely to be Licensees than consumers. After some discussion, the Board agreed that the information could be formatted in a more deliberately instructive way, rather than just listed out as Board actions. Mr. Braatz said the Communications Committee would review the matter.

CORRESPONDENCE

A response to the April 30, 2003 letter from Cynthia Durley, MEd, MBA, Executive Director, Dental Assisting National Board, regarding computerized testing for Oregon-specific exams, was provided for Board review. Mr. Braatz noted that another letter from DANB was provided for Board review, addressing the timeline for initiating the computerized exams and projected costs. Dr. Short suggested the Board review the information and be prepared to discuss the matter at the next meeting on November 21, 2003.

The Board received a letter from Stephen J. Petruzelli, President, Willamette Dental Management, regarding the July 16, 2003 meeting of the Enforcement and Discipline Committee, and the discussion that took place regarding Senate Bill 390. No action was necessary.

The Board received a letter from the Western Regional Examining Board, accompanying the minutes of the Board of Directors and Dental Hygiene Examination Review Committee meetings. The minutes were provided for Board review. No action was necessary.

The Board received a letter from Val Haynes, R.N., B.S.N., Health Consultant, Head Start of Lane County, regarding the eligibility of the Women, Infants and Children (WIC) nutrition program for Limited Access Permit status. Mr. Braatz said he had reviewed the issue with Ms. Lindley. The WIC program would not qualify under the statute, and the Board does not have the authority to change the statute or to draft an Administrative rule.

There was some discussion regarding the eligibility of daycare programs under the LAP statute. Although daycare programs qualify, not all WIC programs include daycare. Dr. Kleinstub said that a WIC daycare program would qualify under the statute.

Dr. McCully suggested that both Head Start of Lane County and Healthy Teeth for Toddlers consider working with the ODHA to draft statutory changes that can be reviewed during Oregon's next Legislative Session.

The Board received a letter from Laura Walker, COIHS Dental Grant Coordinator, Healthy Teeth for Toddlers, regarding the eligibility of the WIC program for LAP status.

EXECUTIVE SESSION: The Board entered into Executive Session pursuant to ORS 192.606 (1)(f), (h) and (k); ORS 676.165; ORS 676.175 (1), and ORS 679.320 to review records exempt from public disclosure, to review confidential investigatory materials and investigatory information, and to consult with counsel.
