BUDGET NARRATIVE

Mission Statement & Statutory Authority

The Oregon Department of Corrections (DOC) operates under the authority of Oregon Revised Statute (ORS) Chapter 423 and Oregon Administrative Rules 291.001 to 291-208 to:

- Supervise the management and administration of the Department of Corrections' institutions, parole and probation services, community corrections and other functions related to state programs for corrections.
- ORS 423.475 modifies the responsibilities through establishment of a partnership agreement with counties whereby the counties assume responsibility for felony offenders sentenced or sanctioned to a term of incarceration of 12 months or less; plus, those felony offenders on parole, probation, or post-prison supervision. (Subject to the state agreeing to provide adequate funding to the counties for those responsibilities. If a county "opts out" of the agreement, the responsibility for these functions returns to the state. Douglas and Linn Counties made that choice during the 2003-2005 biennium.)

The Oregon Constitution, Article 1, Bill of Rights, establishes the fundamental principles of Oregon's Criminal Justice System:

Section 15. Foundation principles of criminal law. Laws for the punishment of crime shall be founded on these principles, protection of society, personal responsibility, accountability for one's actions, and reformation.

The mission of the Department of Corrections incorporates both the responsibility for public safety, and the constitutional tenets set forth above:

The mission of the Oregon Department of Corrections is to promote public safety by holding offenders accountable for their actions and reducing the risk of future criminal behavior.

As an agency, DOC values:

- Integrity and professionalism
- Dignity and respect
- Safety and wellness
- Fact-based decision making
- Positive change
- Honoring our history
- Stewardship

BUDGET NARRATIVE

Agency Strategic/Business Plan

To accomplish its mission, the Department of Corrections continues to move forward with its business strategy, the Oregon Accountability Model (OAM). The OAM consists of six separate elements that stand alone, but when combined, provide a foundation for a continuum of success for offenders from the time they enter DOC doors until the day they release. It is a system that supports both the front and back end of DOC's business.

1. Transition begins at intake when an individualized correctional plan is developed for each adult in custody that addresses his or her criminal risk factors in order to enhance successful reintegration into the community and reduce recidivism.
2. Staff holds adults in custody accountable by providing both positive and negative consequences to behavior, by modeling pro-social behavior, and by guiding adults in custody toward pro-social behavior in concert with their corrections plans and individualized interventions.
3. Adults in custody prepare for community living through specific interventions related to their corrections plans, such as work, education, and focused treatment and re-entry programs.
4. Adults in custody have the opportunity to develop healthy relationships with their families and children in order to build pro-social community support and break the intergenerational cycle of crime.
5. Transition from incarceration to community is carefully planned and coordinated with adults in custody, community stakeholders, and community corrections.
6. Supervision in the community – consistent with the corrections plan and these principles – is essential to reducing recidivism for those released from prison.

Successful implementation of OAM has helped Oregon achieve one of the lowest recidivism rates in the country, measured by Oregon Benchmark number 64 (percentage of paroled adult offenders convicted of a new felony within three years of initial release). This benchmark measures the effectiveness of incarceration, treatment and re-entry programs, and community supervision. DOC will continue to implement OAM to realize further improvement.

Building on OAM, DOC will continue to implement Correctional Case Management (CCM) to realize even further improvements. CCM is a DOC strategic initiative designed to target limited agency resources and treatment towards adults in custody who are at the highest risk of returning to prison. Alongside these targeted intervention strategies is the critical role agency staff play in the process of achieving offender success. Every contact between staff and adults in custody is important, no matter the capacity in which a particular staff member works – the management of adults in custody is a collective responsibility. CCM provides the framework and the opportunity for DOC employees and partners to build a sustainable system that affords adults in custody positive opportunities for change, protects the public's safety, and reduces the numbers of individuals rotating through the criminal justice system.

BUDGET NARRATIVE

Approximately 93 percent of adults in custody will be released and return to the community. Effectively transitioning adults in custody is essential if the department is to reduce victimization, enhance public safety, and control the increasing cost of incarceration. The department's leadership will continue to emphasize the critical need for cooperation with other public and non-profit stakeholders to accomplish successful inmate transition by improving communication, targeting programs, and directing resources to the adults in custody with the greatest risk to re-offend.

Agency Process Improvement Efforts

Building on DOC's business philosophy (the OAM), the agency has completed a full review of agency operations as part of its ongoing strategic planning. From there, DOC created an agency-wide fundamentals map and scorecard, through which it is setting targets and measuring outcomes in all areas of its business. This initiative is called CORE – Correctional Outcome through Research and Engagement. CORE is essentially DOC's performance management system. It allows the agency to use data to measure how it is doing and empower employees to make decisions and solve problems.

CORE is allowing the agency to know how it is doing at every level of the business on an ongoing basis from how it manages contracts, to release planning, to escapes. Through Quarterly Target Reviews (QTRs), the agency monitors where it is in the green (on target), yellow (just off target), and red (significantly off target). Based on those measures in yellow and red, the agency is putting action plans in place to improve in those areas.

Through CORE, the agency is better able to identify and mitigate risks, develop its workforce, and manage workload. The name reflects what is unique about DOC's organizational review: It is helping the agency become more agile, flexible, and focused on achieving the best possible correctional outcomes for the people of Oregon. The last two letters of CORE – research and engagement – reflect the fact that DOC's success depends on a robust focus on evidence-based decision making and the participation and support of its knowledgeable and dedicated workforce.

The expected outcomes of CORE include:

- Increased efficiencies and improved outcomes.
- More fact-based/data-driven decisions and actions.
- Improved transparency.
- Enhanced teamwork and collaboration.
- A common language to operate the organization.
- Increased ownership and accountability.

BUDGET NARRATIVE

2015-17 Short-Term Plan

Program Descriptions

The operating budget for the Department of Corrections is organized into seven Program Units for budget presentation. The seven Program Units are (003) - Operations, (004) - Central Administration, (006) - General Services, (008) - Human Resources, (009) - Community Corrections, (010) - Health Services, and (011) - Offender Management & Rehabilitation.

Separate tracking is provided in other Program Unit Narratives for (086) - Debt Service, (088) - Capital Improvement, and (089) - Capital Construction.

In addition, the administrator of Oregon Corrections Enterprises reports to the DOC Director. Although OCE's budget is separate from DOC's budget, a description of OCE is included at the end of this section.

Operations

The Operations Division is responsible for the overall security, housing, and daily operations of Oregon's incarcerated adult felony inmates (and juveniles sentenced under Measure 11, [1994]). The division generally operates under Oregon Revised Statute (ORS) Chapter 179 and ORS Chapter 421. The Operations Division is under the direction of an Assistant Director with four administrative units:

1. Institutions – DOC currently has 14 active prisons and two deactivated prisons.

Active

- Oregon State Penitentiary (OSP), Salem
- Oregon State Correctional Institution (OSCI), Salem
- Mill Creek Correctional Facility (MCCF), Salem
- Santiam Correctional Institution (SCI), Salem
- Columbia River Correctional Institution (CRCI), Portland
- South Fork Forest Camp (SFFC), Tillamook
- Shutter Creek Correctional Institution (SCCI), North Bend
- Eastern Oregon Correctional Institution (EOCI), Pendleton
- Coffee Creek Correctional Facility (CCCF), Wilsonville
- Powder River Correctional Facility (PRCF), Baker City
- Snake River Correctional Institution (SRCI), Ontario

BUDGET NARRATIVE

- Two Rivers Correctional Institution (TRCI), Umatilla
- Warner Creek Correctional Facility (WCCF), Lakeview
- Deer Ridge Correctional Institution (DRCI), Madras (Minimum)

Inactive

- Deer Ridge Correctional Institution (DRCI), Madras (Medium Inactive)
 - Oregon State Penitentiary (OSP), Salem (Minimum – deactivated October 2010)
2. Transport - responsible for all inmate transport (medical appointments, court appointments, programming needs, interstate compact transfers, etc.) and coordination of institution security audits, oversight of the Tactical Emergency Response Teams (TERTs), and oversight of Crisis Negotiator Teams (CNTs).
 3. Central Services - includes central budget management, automation, policy development, food service administration, and emergency preparedness.
 4. Health Services - includes Medical Services, Dental Services, Behavioral Health Services and Pharmacy.

General Fund appropriations are the primary funding source for the Operations Division, with some Other Fund support from sources such as the Inmate Welfare Fund. Limited Federal Funds are also assumed from the State Criminal Alien Assistance Program grant.

2015-17 Agency Request Budget

Fund Type	Expenditures	Positions	FTE
General Fund	\$740,538,138	3,337	3,319.60
Other Funds	10,055,122	23	23.00

Other Funds	10,054,808	23	23.00
Total Funds	\$726,489,831	3,259	3,241.60

BUDGET NARRATIVE

Central Administration

Central Administration includes the Office of the Director, Office of Internal Audits, Office of Planning and Budget, Government Efficiencies & Communications Office, Office of Research & Projects, Diversity and Inclusion, and the Office of the Inspector General.

Central Administration provides overall leadership to the agency through the DOC Policy Group, which is composed of the agency's assistant directors and the administrators who report to the Director's Office. As the agency continues to grow in size and complexity, greater capacity for planning, coordination across the respective divisions, and more sophisticated administrative practices are necessary. As a result, Central Administration continues to focus on administrative effectiveness, accountability, mitigating risk, and strengthening internal and external communication. Further driving program objectives and services is the continued implementation of the Oregon Accountability Model (OAM) and CORE.

2015-17 Agency Request Budget

Fund Type	Expenditures	Positions	FTE

Federal Funds	972,128	0	0.00
Total Funds	\$73,075,885	86	85.50

General Services

The General Services Division is the backbone of DOC, providing services that are fundamental to its day-to-day operations. General Services includes:

- Distribution Services – provides primary logistical support for correctional facilities, including managing statewide inventory of expendable and non-expendable goods, food product inventories, and the transport of these goods to the institutions, as well as delivery of other direct care items to adults in custody (clothing, hygiene, and general sanitation items).
- Facilities Services – administers repair and maintenance programs for existing institutions.
- Fiscal Services – procurement, contracts, accounting, payroll, inmate trust, fiscal systems, and business functions.

BUDGET NARRATIVE

- Information Technology Services – develops and maintains software and databases that support offender management, inmate programming, and key agency business functions.

These services support the foundation upon which the Department operates safe, secure, and civil institutions aimed at holding offenders accountable and reducing the risk of future criminal behavior.

In addition, the General Services division has taken on coordination of the department’s sustainability efforts, of which there are many, including:

- Expanded recycling programs and the creation of a fully-functional central recycling center.
- Replacing fluorescent lighting with LED lighting.
- Switching to more fuel-efficient vehicles.
- Implementing organic gardening programs to supplement institution menus and provide meaningful work and education to adults in custody.

The benefits of employing sustainable strategies go beyond cost savings. It provides meaningful work opportunities for adults in custody, and reduces the environmental impact of doing business.

2015-17 Agency Request Budget

Fund Type	Expenditures	Positions	FTE
General Fund	\$58,386,430	233	229.43
Other Funds	10,110,425	42	41.73

Other Funds	8,110,305	34	33.73
Total Funds	\$65,491,289	268	266.16

Human Resources

The Human Resources (HR) Division develops and implements a comprehensive, full-service HR program that will enable the department to effectively recruit, develop, and retain a highly-qualified and rapidly growing workforce of more than 4,600 employees,

BUDGET NARRATIVE

contractors, and volunteers. Of major concern (and described later in this document) is the fact that 53 percent of DOC employees are eligible to retire within five years and 35 percent of DOC employees are eligible to retire today.

The HR division has four primary sections:

- Professional Development – Coordinates staff training statewide, including the Basic Corrections Course for new corrections officers, new employee orientation for all new employees, annual in-service training, and all other courses delivered in the classroom or online.
- Employee Relations – leads application of collective bargaining agreements, conducts personnel investigations, ensures HR policies are updated and followed, and delivers HR advice, guidance, and training.
- Labor Relations – manages and negotiates five collective bargaining agreements, fosters labor-management collaboration, leads arbitration preparation, and manages grievances, Unfair Labor Practices, and Demand-to-Bargain suits.
- Human Resource Functions – responsible for recruitment and background checks, classification and compensation, Family Medical Leave Act and Oregon Family Medical Leave Act, and personnel records.

2015-17 Agency Request Budget

Other Funds	5,150	0	0.00
Total Funds	\$14,601,856	63	62.50

Community Corrections

The Community Corrections Division provides funding for the management and supervision of approximately 32,000 felony offenders sentenced to probation, parole, or post-prison supervision, and offenders sentenced to 12 months or less of incarceration. Community corrections supervision and programs are provided directly by the state in two counties (Douglas and Linn), or by the counties through intergovernmental agreement with DOC.

BUDGET NARRATIVE

This division is responsible for the statewide coordination and oversight of community corrections activities at the county level, including monitoring compliance with applicable laws and administrative rules. The program has the statutory responsibility to evaluate community corrections policies, to annually review counties' compliance with the intergovernmental agreement, and to offer technical assistance when needed to gain compliance. In addition, the Community Corrections Division provides consultation and technical assistance to local agencies regarding community corrections options and effectiveness, facilitates communication and problem solving among counties, and organizes training activities specific to community corrections work.

The Community Corrections Division also:

- Operates the interstate compact program (processing applications for transfer of community supervision to and from other states, as well as prisons releases to other states).
- Oversees the department's Short-Term Transitional Leave Program.
- Provides jail inspections, which include on-site evaluation of 95 adult jail and juvenile detention facilities in counties and municipalities.

2015-17 Agency Request Budget

Fund Type	Expenditures	Positions	FTE
General Fund	\$271,672,112	66	66.33
Other Funds	6,757,387	0	0.00

2015-17 Governor's Balanced Budget

Fund Type	Expenditures	Positions	FTE
General Fund	\$254,216,749	63	63.33
Other Funds	6,757,387	0	0.00
Federal Funds	300,551	0	0.00
Total Funds	\$261,274,687	63	63.33

Health Services

The Health Services section provides legally mandated medical, dental, mental health, and pharmacy services to the entire offender population. To accomplish this task effectively and efficiently, the department uses a managed care model, which is similar in some ways to a coordinated care model. This managed model of care stresses:

- On-site primary care with early intervention and prevention

BUDGET NARRATIVE

- Coordinated care and management of diseases
- Controlled access to specialists and specialist procedures
- Restricted pharmacy medication formulary
- Chronic disease management
- Controlled utilization
- Utilization review and claims review

DOC maintains a team of professionals that includes Physicians, Nurse Practitioners, Physician Assistants, Registered Nurses, Dentists, Psychiatrists, Mental Health Specialists, Pharmacists, as well as other licensed professionals.

2015-17 Agency Request Budget

Fund Type	Expenditures	Positions	FTE
General Fund	\$237,399,347	579	558.45

Total Funds	\$239,652,667	563	543.99

Offender Management and Rehabilitation

The Offender Management and Rehabilitation (OMR) Division is responsible for carrying out the Department of Corrections (DOC) mission to reduce the risk of future criminal behavior. The division encompasses all the units that are involved from the day an individual enters DOC custody to the day he/she leaves. This is based on the philosophy that transition back to the community begins on day one in prison.

The OMR Division includes the following sub-units:

- Intake – processes all individuals sentenced to the custody of DOC, conducts individualized assessments, and collaborates with other DOC units to develop individualized case plans.

BUDGET NARRATIVE

- Offender Information and Sentence Computation (OISC) – ensures accurate sentence computation, provides sentencing information to law enforcement agencies and the public, processes subpoenas, and maintains all offender records in the state.
- Office of Population Management (OPM) – ensures the efficient movement and housing of all adults in custody in state, out-of-state, in other jurisdictions, and those with special needs.
- Programs and Volunteer Services – responsible for the overall planning, coordination, and management of the department’s treatment and behavioral change programs, along with the statewide volunteer program.
- Education and Training – provides a continuum of education, including Adult Basic Skills Development (ABE, GED, ESL), vocational training, community college and industry standard certificate programs, and apprenticeship and certifications.
- Religious and Victim Services – provides a wide range of faith-based services, provides pastoral counseling, provides crime victim services, and facilitates the Home for Good program.
- Inmate and Community Advocacy – oversees quality of life and rights issues for adults in custody, and serves as a liaison between the department and the community.
- Transition and Re-Entry – coordinates release planning efforts, assists releasing adults in custody in obtaining identification and applying for state and federal benefits, and provides skills-based transition programming.

Total Funds	\$76,889,349	195	193.50

BUDGET NARRATIVE

Oregon Corrections Enterprises

Although not part of the DOC budget, Oregon Corrections Enterprises (OCE) is intricately connected to DOC, and the two agency's missions go hand-in-hand. Established in 1999 through the passage of Ballot Measure 68, OCE is a semi-independent organization, whose administrator reports to the DOC Director and is a member of DOC's Policy Group (Executive Cabinet). OCE plays an important role in carrying out Ballot Measure 17, the constitutional mandate to engage inmates in meaningful work. OCE is not supported by taxpayer dollars; instead, it is funded through sales of its services and products.

The mission of OCE is to promote public safety by providing inmates with meaningful work experience in a self-sustaining organization. Working with DOC, OCE seeks partnerships with other agencies and private organizations to provide work and training programs for inmates that mirror real-world job experiences. Current OCE prison programs include contact centers, sewing/embroidery, wood fabrication, laundry, printing, a garment factory, and a sign shop.

OCE plays an important role in implementing DOC's Oregon Accountability Model (OAM). Through developing positive work ethics and job skills, OCE assists inmates in their transition to productive citizens who contribute to society and to their families. OCE is incorporated into DOC's agency wide scorecard, and has created its own performance management system called TRAIN – Transparent Results to Advance Interactions and New Solutions. Since March 2013, OCE has increased the number of inmates employed in OCE work assignments by 11 percent.

Environmental Factors

Over the past 20 years, the philosophy about what works in corrections has evolved across the country from corrections systems that once focused only on punishment to those that are rooted in rehabilitation and reformation, with Oregon leading the way. Oregon's system relies on data and research to implement best practices and programs to reduce recidivism and future victimization.

In recent years, the corrections system has undergone a number of dramatic changes. Counties have assumed greater responsibility for short-term inmates. Through the initiative process, citizens have changed the Oregon Constitution to require longer prison sentences and to place greater emphasis on inmate work. Consequently, the prison population had been rapidly expanding up until the passage of comprehensive public safety reform in Oregon (HB 3194 [2013]). Based on the changes HB 3194 made, it is the first time in decades that Oregon is forecasting virtually no prison population growth over the next 10 years (the April 2014 prison population forecast projects 1.6 percent growth over the next 10 years).

Changes in law and community programs have resulted in substantial increases in the number of female inmates, mentally ill inmates, and elderly inmates. This significantly impacts the department's operating environment.

BUDGET NARRATIVE

Agency Initiatives

Staff Safety and Wellness

Research and experience show that corrections work is difficult and stressful. In fact, DOC has some staggering statistics:

- One in three Oregon DOC employees have symptoms of Post-Traumatic Stress Disorder (PTSD) – a rate higher than that of firefighters and deployed military, and four times that of the general population.
- Research shows employees exhibiting PTSD have higher levels of tobacco and alcohol use, more health problems, and a higher number of doctor visits and workday absences.
- In addition to those Oregon statistics, the National Institute of Corrections found that the average life expectancy of a corrections officer after 20 years of work is 58. And that's compared to a national average of 75.

The agency wants to see this change and has made staff safety and wellness its top initiative. Several efforts are already underway:

- A partnership with Portland State University aimed at improving the mental health of corrections workers.
- A partnership with Oregon Health & Sciences University aimed at improving the physical health of corrections workers.
- A partnership with the Center for Mindfulness in Corrections to implement a wellness program aimed at addressing correctional officer stress and fatigue.

Based on the research findings, DOC has made staff wellness its top agency initiative. The primary goals are to create and promote a culture of wellness within DOC's facilities and encourage all employees to access and utilize wellness activities and events. The agency recently kicked off this initiative by forming a workgroup whose tasks are to concisely define staff wellness, finalize a staff wellness project scope, and write a staff wellness mission statement. The agency will continue to look for ways to improve staff safety and wellness.

Federal PREA Standards

The Prison Rape Elimination Act (PREA) was passed by a unanimous Congressional vote and signed by President Bush in 2003 to reduce the incidents of sexual violence, sexual coercion, and sexual solicitation by requiring corrections and law enforcement agencies to enhance education, investigation, protection, prevention of re-victimization, and prosecution. Since that time, the department has been aggressive in implementing its PREA strategies.

In 2012, the U.S. Department of Justice released its federal PREA standards. As part of the new PREA standards, one-third of DOC's prisons will receive national PREA audits every year. Preparation for national PREA audits requires cross collaboration between sections and facilities department-wide. The first four DOC institutions to be audited – Snake River Correctional Institution, Oregon State

BUDGET NARRATIVE

Penitentiary, Powder River Correctional Facility, and Columbia River Correctional Institution – met and exceeded in every applicable standard.

The importance of DOC's ongoing efforts to eliminate sexual abuse in its prisons cannot be overstated. DOC's work in establishing compliance with the PREA standards will make its prisons safer and increase the degree of confidence the public has in DOC's ability to operate safe and secure facilities.

Correctional Outcomes through Research and Engagement

As mentioned earlier, DOC has begun implementing a performance management system called CORE – Correctional Outcomes through Research and Engagement. To date, the agency has clearly defined the work it does every day, created a fundamentals map, set targets, and is now measuring outcomes.

The agency is now fully in the implementation phase, which means it is starting to understand what is working and what is not. For the things that are not working, the agency is implementing problem-solving teams to clearly define what the problem is, understand the problem better, and to implement solutions. And, across the agency, leadership is inviting frontline staff to engage in the business process as their locations develop local scorecards. The agency has now conducted its sixth Quarterly Target Review, and these efforts are cascading throughout the organization.

Expand Recidivism Reduction Strategies

Part of DOC's mission is to reduce the likelihood that individuals will commit new crimes (and thus, create new victims) once they release. To do that, the agency looks to what works in reducing recidivism, which research shows is a combination of treatment, education, cognitive programming, and job preparedness.

- **Employment Skills for Re-Entry** – In order to assess the continuum of opportunities for adults in custody, the Operations Division, OMR Division, Community Corrections Division, and Oregon Corrections Enterprises (OCE) have partnered to create the Employment Skills for Re-Entry Steering Committee. This committee is overseeing six implementation teams that will make recommendations to improve systems related to better preparing adults in custody for employment opportunities when they release.
- **Expand, Improve and Effectively Target Education Programs** – Just as with job preparedness, research shows education can play an important role in an individual's success post-prison. That is why the agency is looking to expand and improve upon its education programs and work-based education programs.
- **Evaluate Treatment Programming System** – The DOC Research Unit has created a "Service Matching Tool." This system will allow DOC to review adults in custody for placement into program treatment beds by matching program effectiveness with inmate need. This tool should be implemented by 2015.

BUDGET NARRATIVE

Sustainability

The department is committed to sustainable operations to protect the natural environment and improve quality of life for healthier communities. Over the past several biennia, DOC has built on previous efforts and has begun implementing a number of sustainable initiatives, including increased recycling efforts, converting its vehicle fleet to more efficient and high gas-mileage vehicles, replacing traditional lighting with LED lighting, and much more. The agency will continue to look for innovative ways to enhance sustainability, and provide education and meaningful work assignments to adults in custody.

Governor's Re-Entry Council

The Governor's Re-Entry Council is a statewide leadership group convened to work collaboratively on improving the success and safety of incarceration to community transition. As outlined in Executive Order 07-05, the Council is responsible for planning, developing, implementing and overseeing a multi-agency transition approach for Oregon.

This past year, the Council has been transitioning to an outcome-based group. In order to achieve outcomes and meet their targets, the Council has created Implementation Teams. These teams have a strong community involvement and focus on a specific area and concern paving the road to joining the community. Within each issue, implementation teams are charged to consider impacts to victims, the need for (and barriers to) housing, employment, and restitution requirements post-release.

- Aging populations – Providing continuing care through thoughtful community-based or other placement, with access to continuing physical and mental health care, and uninterrupted service delivery to meet all basic needs (housing, employment, etc.).
- Business Community – Engaging and educating employers about the reentry populations; collaborate with industries, organizations and businesses to develop education and information-sharing forums through-out the state so employers can learn about the benefits and opportunities of hiring persons returning from incarceration.
- Education – Improving the number and type of opportunities for adults in custody to enhance their education including web-based/online options.
- Family and Community Connections/Engagement – Increasing family and community connections/engagement both within custody and in the community.
- Juvenile Reentry – Improving the juvenile reentry supports and services continuum for youth offender in the legal and physical custody of OYA, and young adults in OYA's physical custody.
- Veterans – Connecting Veterans and their families to resources and support systems while engaging and focusing on victims, housing, employment, livelihood, and restitution.

Improving Oregon's reentry track record will have an impact in Oregon and will provide a model for others to use. Oregon's communities will be safer because successful reentry reduces future crime. Successful reentry will help slow the financial burden of corrections budgets, as well as the impact on other areas of state budgets such as homeless service systems which are impacted when

BUDGET NARRATIVE

we fail to help people find housing. More importantly, successful reentry means that these individuals will be able to contribute positively to their families and their communities – and to Oregon.

New Automation to Support Business Functions

Over the years, the agency has been developing new automation to support business functions. This includes the Offender Management System, the WHALE system (which provides an accurate profile of adults in custody eligible for assignment to community work crews or placement in an unfenced minimum facility), and a new inmate property tracking system. These new systems do not replace the base system the agency has been using for years – the AS400 – which uses an antiquated coding system and that must be augmented with technology that is more modern.

Over the next year, the agency will prioritize new technologies (Electronic Health Records, SharePoint for internal document sharing, and a Suicide Risk Assessment Tool), aging technologies (the current web filtering tool needs to be replaced), process improvement (development of policies and procedures to increase maturity in IT security standards and information security standards, implementing design review processes for service requests), and other projects (implementing electronic GED testing, developing new modules for the HR Information System).

Increasing Family Engagement

The agency continues to work to increase family engagement for adults in custody and their families. These efforts stem from research out of Minnesota that found that visitation significantly decreases the risk of recidivism (and the agency knows from experience it keeps prisons safer. For example, inmate-on-staff assaults are down 23 percent from 2012 to 2013.

As measured on the agency's scorecard, family connectivity has become an important measure for DOC. Through the introduction of video visitation, text messaging, and increasing opportunities (and the enhanced quality of) expanded family visits, adults in custody and their families are able to interact in ways they have not previously. Institution Executive Teams have been very creative and innovative in their approach to maximizing family connectivity through incentive-based activities.

Upon review of the Minnesota study, in spring 2012, 59 percent of the adults in DOC custody did not get visits. As a result of the agency's efforts to increase family engagement, that number is now reversed. Now, 60 percent of the adults in DOC custody have received some sort of visitation.

The Research Department has recently sent out a survey to adults in custody asking about visiting. The responses from adults in custody will be reviewed and action items may be considered to increase family engagement.

There are still many hurdles that need to be studied and recommendations made to overcome barriers for family engagement:

BUDGET NARRATIVE

- In the minimum facilities the visiting areas are generally the inmate dining area and program space, which limits availability.
- Staffing to supervise visiting and enhanced family events.
- The weather and distance for the Eastern Oregon Facilities and the issues that causes for many families.
- Computerized IT issues pertaining to the use of points for visitation.

In addition, the agency is continuing to expand the use of trained volunteers as mentors to adults in custody, in order to improve outcomes even further. This expansion is under review with the Governor's Re-Entry Council as well.

Short-Term Transitional Leave

The expansion of Short-Term Transitional Leave (STTL) is one of the biggest bed savers in the changes made by HB 3194 (2013). It increased the time someone could release to STTL from 30 days to up to 90 days. This only applies to those individuals sentenced on or after August 1, 2013.

HB 3194 also changed the process for admitting individuals into the STTL program. It used to be that the responsibility was placed on the adult in custody to reach out to his/her institution counselor to apply. It is now the department's responsibility to identify those who are statutorily eligible and to place them in the application process. Since December, DOC has seen a 93 percent success rate in those individuals releasing to STTL.

While the agency is doing its part to implement this portion of the bill, it will take some time to see the full effects as many of those who are eligible are not yet near release. Nevertheless, the agency has the tools in place to ensure this is a department-initiated process, and all those who are eligible will go through the application process, while ensuring public safety to the best of our ability.

Optimizing the Use of Special Housing

DOC has several options for housing adults in custody within special housing units based on operational needs of the department and individual inmate needs. DOC's special housing units include disciplinary segregation, administrative segregation, administrative housing, mental health, and an Intensive Management Unit.

The department acknowledges that special housing is an important management tool within its institutions. DOC also recognizes that it should be a last resort, a more productive form of confinement, and that it is not a long-term solution for behavioral problems. Given that, the agency has made changes over the years that focus on helping adults in custody improve behavior so they can return to general population. The agency will continue to develop strategies to optimize the use of its special housing beds.

BUDGET NARRATIVE

Staff Recruitment, Training, and Development

One of the challenges DOC faces is recruitment, especially for positions in prisons located in rural areas and in its health services field statewide. DOC is working to prioritize job fairs (based on those that have been successful in the past), and to establish a stronger presence in online recruitment sites. In addition, the agency always keeps open the recruitment lists for correctional officers, corporals, and sergeants.

Adding to recruitment challenges is retention. In fact, 42 percent of DOC employees are eligible to retire within five years; 33 percent of DOC employees are eligible to retire today. This is concerning because experience and institution knowledge are difficult things to replace. For DOC, retention almost always includes promotion because there are unique challenges in bringing someone from another agency or the private sector into a management structure within a prison. However, promoting (especially into management) is becoming less attractive to many people because of salary compression, the removal of restoration rights, and the risk of being an at-will employee. The agency will formulate a plan to address these and other recruitment and retention issues.

Agency Accomplishments

While housing more than 14,500 adults in custody, Oregon continues to operate one of the strongest correctional systems in the country, as evidenced by a number of key indicators:

- DOC's recidivism rate is one of the lowest in the nation;
- The violence rates in DOC prisons are down, and the system's use of very expensive high-security segregation beds is at historical lows; and
- DOC continues the difficult task of managing within its prisons the largest number of mentally ill adults either incarcerated or institutionalized by the state.

DOC strives for a seamless handoff from prison to community corrections by reducing the barriers that so often stand in an offender's way. DOC recently received one of nine Smart Probation grants that allowed the agency to hold the first advanced community corrections academy, which brought parole and probation staff and institution staff together to further enhance transition and re-entry initiatives.

In addition, DOC continues to improve in the use of evidence-based, validated risk assessments to drive decision-making around how to best supervise, sanction, and serve these individuals; partner with the Association of Oregon Counties on systemic and legislative possibilities to support and improve local public safety systems; and engage in public safety summits. DOC is also part of a statewide collaboration to move Oregon into an evidence-based decision-making model state. While Oregon uses evidence-based decision making in segments, the Evidence Based Decision Making Initiative (EBDMI) will expand the concept as an overlay of the entire criminal justice system – from crime prevention to system discharge.

BUDGET NARRATIVE

Criteria for 2015-17 Budget Development

The department must have a plan to accommodate the projected maintenance and growth in prison population. The April 2014 Prison Population portion of the Oregon Corrections Population Forecast indicates 14,919 adults in custody will need to be housed by March 2024. This will require maximum utilization of an aging prison infrastructure. Maximum utilization of the existing infrastructure requires that all existing facilities must be maintained in proper working order, including continued modifications to primary utility services to house more adults in custody in some institutions than the buildings were designed to house. Investments in technology are prioritized to improve the functionality of the existing infrastructure and keep up with federal requirements, and investments in staffing are prioritized to improve the security of the state and the health and safety of the DOC workforce and the people within its care. Additionally, programs and services needed to meet unique population needs in areas of addiction treatment, mental health care, an aging population, and other significant demographic characteristics for a male minimum-custody population have been prioritized in the 2015-17 budget development process.

By statute, the Community Corrections program must conduct a study every six years to determine actual costs of delivering services prescribed by SB 1145, which transferred responsibility for supervision of offenders with felony conviction sentences of 12 months or less to local counties. The outcome of the actual costs are included in the Agency Request Budget.

The challenge of an underfunded post relief factor is partially addressed in Policy Package #102 for the 2015-17 biennium. Institution operations that must be staffed 24-hours a day, seven days a week, and 365 days per year demand adequate post relief for normal absences, vacations, staff training, sick leave, and other absences.

The department continues to implement the Oregon Accountability Model. The principles upon which this model is based are listed in the Agency Strategic/Business Plan section above. In general, the department must hold adults in custody accountable for their behavior and reduce the risk of future criminal behavior when they return to the community. The components of the OAM provide a strategy to carry out the department's mission.

The department will work with stakeholders in the community and in the institutions to define the principles of evidence-based practices. The department recognizes the need to maintain and improve its infrastructure and support functions to effectively support the growing organization. In addition, while not used in developing the budget, the agency believes CORE (described above) will lead to improved efficiencies and cost savings and, over time, may aid in future budget development.

The department also continues to work closely with the Legislature, the Criminal Justice Commission, and other public safety stakeholders to explore practices that can further improve the overall public safety system in Oregon.

BUDGET NARRATIVE

BUDGET NARRATIVE

Major Information Technology Projects/Initiatives

DOC is putting forth four primary Information Technology related initiatives in the 2015-17 Agency Request Budget. These initiatives are proposed in four separate Policy Option Packages:

- POP 101 – Electronic Health Records
- POP 104 – Computer Information System Replacement Project
- POP 110 – Technology Infrastructure
 - Sharepoint Intranet and Collaboration Tool
 - SAS Data Warehouse Software Maintenance
 - Intake Electronic Computer-based Data Collection & Assessment System
 - Payroll Document Imaging Systems
 - Warehouse Management Barcode System
 - AS 400 Modernization
- POP 112 – Prison Rape Elimination Act Technology Solutions

Throughout the past several biennia, DOC has faced many budget challenges. Due to these budget constraints, DOC has been unable to implement needed technology upgrades for a healthy infrastructure. DOC still has numerous inefficient manual and paper business processes that fail to provide shared data and critical information necessary to manage adults in custody and staff. The failure to implement these upgrades included in the above Policy Option Packages may have significant negative consequences throughout an inmate's custody cycle, which commences at admission to a DOC facility through intake assessment, and continues through to incarceration, probation, and post-prison supervision.

It is essential that DOC maintain accurate and quickly available information on all adults in custody throughout their custody cycle so DOC staff can make solid decisions regarding inmate case and behavior management. Assisting inmates to progress successfully through their custody cycle helps DOC reach critical objectives of safety, wellness, and rehabilitation, reducing the risk of both current and future criminal behavior.

BUDGET NARRATIVE

DOC proposes and requests approval for a series of technical upgrades to position the agency to take advantage of improved infrastructure efficiencies. The modernization of these critical and targeted business functions is essential to the DOC's ability to promote public safety by supporting all department functions necessary for inmate management, case management, sentence management, and fiscal accountability. The new and upgraded systems will provide DOC with a foundation to share data and essential information and measure processes, leading to improved business efficiencies, decisions, and responsiveness.

Additionally, due to the new PREA standards (a federal law that seeks to eliminate sexual assaults and sexual misconduct), DOC is proposing a significant Information Technology upgrade. DOC has enacted policies and procedures supporting a zero-tolerance for sexual abuse, and is now seeking to invest in the appropriate technology that will support these policies and processes, and ensure compliance with PREA objectives. One of the primary technology solutions being proposed through POP 112 is tracking bracelets, which would allow the DOC to wirelessly monitor inmate location and perform real-time location supervision, tightening control and enhancing security for adults in custody and staff. The system could be used to enhance Security Threat Management (STM) through tracking inmate movement, allowing for the collection of affiliate data (both in partner and victim identification) and location data. This new technology is a critical component for detecting prison rape and other security concerns.

Finally, the Department of Administrative Services (DAS) is seeking a new telephony solution for all state agencies. The planned solution will transition the state out of the telephone business with all telephone services provided by the selected vendor. To accomplish this change from analog to digital telephony, DOC will need to upgrade nearly its entire infrastructure from CAT 3 to new CAT 6, fiber, and pathway infrastructure to support Voice-Over Internet Protocol (VOIP). In some cases, this upgrade will be required to be accomplished in 20-, 50-, or 100-year-old buildings, incurring significant costs for new conduit and wire installation and abatement of asbestos-containing building materials. Additionally, all of the old switches and handsets will no longer be functional and will require replacement.

Document criteria used to prioritize activities:

- 1) Agency Mission, constitutional requirements and federal mandates
- 2) Public safety, staff and inmate safety, population management, inmate care & housing, community supervision
- 3) Impact on recidivism, behavior change, tools for successful re-entry into communities
- 4) Interrelationships and dependencies between related functions & programs
- 5) Benchmarks and key performance measures

5/10% REDUCTION OPTIONS (ORS 291.216)

ACTIVITY OR PROGRAM	DESCRIBE REDUCTION	AMOUNT AND FUND TYPE	RANK AND JUSTIFICATION
(WHICH PROGRAM OR ACTIVITY WILL NOT BE UNDERTAKEN)	(DESCRIBE THE EFFECTS OF THIS REDUCTION. INCLUDE POSITIONS AND FTE IN 2015-17 AND 2017-19)	(GF, LF, OF, FF. IDENTIFY REVENUE SOURCE FOR OF, FF)	(RANK THE ACTIVITIES OR PROGRAMS NOT UNDERTAKEN IN ORDER OF LOWEST COST FOR BENEFIT OBTAINED)
<p>1. Consolidate four minimum-custody male institutions into the inactive medium-custody male facility at Deer Ridge Correctional Institution in Madras.</p>	<p>This strategy would deactivate up to four minimum security facilities. Up to 1,644 male minimum-custody inmates would be relocated to the unoccupied medium-custody facility at the Deer Ridge Correctional Institution in Madras, which was designed and constructed to house 1,228 offenders, necessitating the creation of 416 new emergency beds.</p> <p>Of the 306 positions (307.2 FTE) eliminated at the four deactivated facilities, 92 positions/ 88.6 FTE would be projected to relocate to the Deer Ridge facility. The remaining staff would be reviewed for potential placement elsewhere in the department, based on seniority status. All impacted institutions are represented by the AFSCME labor organization. In order to have any possibility of achieving this level of savings, the staff seniority review and plans for activation of the Madras facility would need to begin immediately. Based on the current need to consistently maintain over 200 position vacancies to address budget cuts, placement of these 214 staff would be challenging. Estimated savings are net of all termination and mothball costs for deactivated facilities.</p>	<p>\$29,398,003 GF</p>	<p>Due to progressive reductions to all programs and functions over the past several biennia, coupled with layers of budget reductions at the statewide level, the only reasonable strategy is a reduction in workload through a consolidation of locations and a reduction of staff and operational costs.</p> <p>This proposal would maintain the current inmate population and would not require statutory change to allow for early offender releases. Continued growth in the inmate population makes this strategy somewhat short-term, in that the current utilization of existing emergency beds will force the re-activation of closed facilities in the future.</p>

5/10% REDUCTION OPTIONS (ORS 291.216)

ACTIVITY OR PROGRAM	DESCRIBE REDUCTION	AMOUNT AND FUND TYPE	RANK AND JUSTIFICATION
(WHICH PROGRAM OR ACTIVITY WILL NOT BE UNDERTAKEN)	(DESCRIBE THE EFFECTS OF THIS REDUCTION. INCLUDE POSITIONS AND FTE IN 2015-17 AND 2017-19)	(GF, LF, OF, FF. IDENTIFY REVENUE SOURCE FOR OF, FF)	(RANK THE ACTIVITIES OR PROGRAMS NOT UNDERTAKEN IN ORDER OF LOWEST COST FOR BENEFIT OBTAINED)
	<p>The effect of this strategy would be substantial on the three rural community economies, Baker City, Lakeview and North Bend. Deactivation of the Santiam institution in Salem would also have a significant impact, but with more employment opportunities for affected staff. The combined biennial payroll for the four minimum-custody facilities is projected at \$44.9M for the 2015-17 biennium.</p> <p>Based on the April 2014 Office of Economic Analysis Corrections Population Forecast, growth in the inmate population would indicate a need for re-activation of one of the facilities by July 2019, given that all existing emergency capacity for males is already in use and assumed to remain activated for the entire ten-year forecast timeframe.</p>		
<p>2. Deactivate Mill Creek (Salem), Columbia River (Portland) & South Fork Forest Camp (Tillamook) and release 1,087 minimum-custody male inmates to community corrections local supervision.</p>	<p>Currently, the Director of the Department of Corrections does not have statutory authority to release offenders prior to their calculated sentence completion date. This strategy is only possible if statutory changes permit early releases by administrative action.</p>	<p>\$39,570,214 GF \$2,278,621 OF</p>	<p>This is the second workload/caseload reduction strategy and would involve the closure of three additional facilities, each with unique agency missions. The lack of statutory/legal authority to early release inmates is a major</p>

5/10% REDUCTION OPTIONS (ORS 291.216)

ACTIVITY OR PROGRAM	DESCRIBE REDUCTION	AMOUNT AND FUND TYPE	RANK AND JUSTIFICATION
(WHICH PROGRAM OR ACTIVITY WILL NOT BE UNDERTAKEN)	(DESCRIBE THE EFFECTS OF THIS REDUCTION. INCLUDE POSITIONS AND FTE IN 2015-17 AND 2017-19)	(GF, LF, OF, FF. IDENTIFY REVENUE SOURCE FOR OF, FF)	(RANK THE ACTIVITIES OR PROGRAMS NOT UNDERTAKEN IN ORDER OF LOWEST COST FOR BENEFIT OBTAINED)
	<p>This strategy would result in the release of almost 1,100 offenders into the community and to the supervision of local community corrections agencies. The proposed savings are net of the additional community corrections supervision caseload funding impacts, termination costs and all related institution mothball costs.</p> <p>Deactivation of the Mill Creek facility would eliminate much of the outside work crew resources used in the community to provide savings for other local governments.</p> <p>Deactivation of the South Fork Forest Camp will terminate the cooperative relationship with the Forestry Department for forest-related work crews, and deactivation of the Columbia River Correctional Institution in Portland would shut down a major metropolitan area releasing institution with significant programming and treatment capacity, and a medical hub for offsite medical connection to the Oregon Health & Science University.</p>		<p>hurdle and this approach has not been supported in previous budget reduction discussions. It is presented here in support of the belief that to achieve budget reductions of this magnitude, the only reasonable solution in the near term is to downsize the population requiring supervision.</p>

5/10% REDUCTION OPTIONS (ORS 291.216)

ACTIVITY OR PROGRAM	DESCRIBE REDUCTION	AMOUNT AND FUND TYPE	RANK AND JUSTIFICATION
(WHICH PROGRAM OR ACTIVITY WILL NOT BE UNDERTAKEN)	(DESCRIBE THE EFFECTS OF THIS REDUCTION. INCLUDE POSITIONS AND FTE IN 2015-17 AND 2017-19)	(GF, LF, OF, FF. IDENTIFY REVENUE SOURCE FOR OF, FF)	(RANK THE ACTIVITIES OR PROGRAMS NOT UNDERTAKEN IN ORDER OF LOWEST COST FOR BENEFIT OBTAINED)
	<p>Up to 449 positions would be eliminated and the placement within the department would be subject to the seniority system contained in the collective bargaining agreement with AFSCME. If coupled with the first strategy, placement would be more challenging, with almost 700 staff being laid off. Collectively, this would result in a 15% reduction in the agency workforce.</p> <p>Combined payroll for these three institutions is projected at \$26.6M for the 2015-17 biennium.</p> <p>At this point, all of the free-standing male minimum-custody facilities are closed, with only the co-located minimum units at Two Rivers (Umatilla) and Snake River (Ontario) remaining active.</p>		
<p>3. Deactivate the Oregon State Correctional Institution on or about June 15, 2016 and release 946 medium-custody inmates to community corrections local supervision.</p>	<p>Much of the same discussion as #2 above, this option would also require early release authority, which has not been a concept supported by the broader public safety community. This strategy would release medium-custody inmates, compared to all of the prior deactivations that released minimum-custody inmates. This institution is the site for significant</p>	<p>\$24,235,182 GF \$28,573 OF</p>	<p>This is the last of the three workload or population reduction strategies offered to meet the 10% reduction target. Important to note here is that the sum total of the three population strategies is only \$93,203,399 GF, or 60% of the total reduction target of \$156,400,533.</p>

5/10% REDUCTION OPTIONS (ORS 291.216)

ACTIVITY OR PROGRAM	DESCRIBE REDUCTION	AMOUNT AND FUND TYPE	RANK AND JUSTIFICATION
(WHICH PROGRAM OR ACTIVITY WILL NOT BE UNDERTAKEN)	(DESCRIBE THE EFFECTS OF THIS REDUCTION. INCLUDE POSITIONS AND FTE IN 2015-17 AND 2017-19)	(GF, LF, OF, FF. IDENTIFY REVENUE SOURCE FOR OF, FF)	(RANK THE ACTIVITIES OR PROGRAMS NOT UNDERTAKEN IN ORDER OF LOWEST COST FOR BENEFIT OBTAINED)
	<p>inmate work programs operated by Oregon Corrections Enterprises. These would need to either close or relocate due to the absence of an inmate workforce. This facility is also home to a unit that houses inmates with severe medical conditions, which would also need to be relocated.</p>		
<p>4. Proportional reduction to Community Corrections grants for local felony supervision.</p>	<p>In the 2015-17 Agency Request Budget, funding for grants for parole, probation and post-prison supervision is \$245,759,961 GF. Any reduction that reduces the funding level for this supervision responsibility below a statutorily-defined funding formula will trigger what is known as the “opt out,” which means simply that counties would have the option to “opt out” of their supervisory responsibilities and give that role back to the state.</p> <p>To date, Linn and Douglas Counties have elected that option and are now state-run county community corrections programs. If other counties were also to “opt out,” those county staff would likely become state employees and part of the Department of Corrections.</p>	<p>\$24,557,996 GF</p>	<p>Based on the magnitude of the overall reduction target, this must be considered as a proportional contribution, despite the operational and political risk. To consistently achieve budget reductions at this level, the entire felony caseload will need to see proportional reductions; both incarceration and local supervision.</p>

5/10% REDUCTION OPTIONS (ORS 291.216)

ACTIVITY OR PROGRAM	DESCRIBE REDUCTION	AMOUNT AND FUND TYPE	RANK AND JUSTIFICATION
(WHICH PROGRAM OR ACTIVITY WILL NOT BE UNDERTAKEN)	(DESCRIBE THE EFFECTS OF THIS REDUCTION. INCLUDE POSITIONS AND FTE IN 2015-17 AND 2017-19)	(GF, LF, OF, FF. IDENTIFY REVENUE SOURCE FOR OF, FF)	(RANK THE ACTIVITIES OR PROGRAMS NOT UNDERTAKEN IN ORDER OF LOWEST COST FOR BENEFIT OBTAINED)
5. Eliminate enhanced treatment funding for counties.	<p>As part of the funding strategy resulting from passage of BM 57 (2008), the legislature approved \$15M GF for additional addiction treatment in local communities. \$5M of that was subsequently reduced in budget reduction exercises, but the inflated remainder is allocated to counties based on a grant application process each biennium.</p> <p>The importance of providing ongoing treatment for offenders on local supervision after their release from prison is well documented, as it relates to the increased probability of a successful re-entry back to their local communities. The long-term impact to the DOC budget would be the increased risk of increased recidivism, victimization, and re-incarceration.</p>	\$10,654,022 GF	This reduction option is the second strategy impacting funding for local community corrections programs and activities. This funding is not part of the statutorily-defined funding for caseload supervision and would not trigger an “opt-out” if cut.
6. Eliminate transition/treatment program funding.	The reduction of this funding would limit the resources available to releasing offenders for ongoing treatment or other financial assistance to ensure the most successful release possible and minimize the recidivism risk.	\$925,406 GF	This program funding for transition and release support is also not part of the statutorily-defined funding obligation for the state and if cut, would not trigger the “opt-out” potential.
7. Eliminate all non-mandated programs and treatment as	This reduction will have a significant impact on the menu of in-prison treatment	\$8,478,829 GF 838,052 GF	Alcohol & Drug – program & admin Parenting Inside-Out

	<p>these self-financed activities would impact the DOC constitutional compliance with BM 17, which requires inmates to be actively engaged in work, training, programs or treatment for a significant part of their time while incarcerated. Revenues from these activities do not support other agency programs or activities.</p>		<p>actively engaged in work activities and learn skills that can aid in the re-entry process. Other governmental agencies who utilize these work crews to generate savings in their own local budgets would have to obtain these services elsewhere, likely at a higher cost, or simply discontinue the service.</p>
<p>9. Restrict the expenditure of Federal Funds.</p>	<p>The department has limited federal fund resources from which to make reductions. The primary federal revenue stream comes as a block grant allocation from the State Criminal Alien Assistance Program (SCAAP) and must be directed to partially reimburse the agency for inmate medical expenses. Two other federal fund limitations are included in the 2015-17 budget and are carryover balances from grants received in prior biennia – these also are dedicated by grant terms and conditions, to the express purpose for which the funds were awarded. These funds may not be redirected to other agency needs.</p>	<p>\$558,742 FF</p>	<p>Since these funds may not be used for any other agency purpose, there is no logical reason to reduce spending and return the funds to the granting agency.</p>
