

## STANDARDS WORKSHEET

**STANDARD:** Organizational, managerial and technical expertise of the applicant

<b>1. Is there a public interest that should be addressed by state policy? Does the state have a role to play?</b>
<i>Yes (Special expertise may be critical to development of certain kinds of projects, and compliance history may foretell ability to observe standards, i.e., is the applicant a bad actor?)</i>
<b>2. Can the state advance the public interest effectively through the siting of individual energy facilities?</b>
<i>Yes</i>
<b>3. Can objective guidelines by rule make clear what is expected of a siting applicant with precision and specificity?</b>
<i>Yes (Is there evidence of a record of noncompliance?)</i>
<b>4. Can the state advance the public interest more effectively by means other than siting of individual energy facilities?</b>
<i>No</i>
<b>5. Identify those other means with precision and specificity.</b>
<i>Not applicable</i>

## STANDARDS WORKSHEET

STANDARD:        Seismic hazards

<b>1. Is there a public interest that should be addressed by state policy? Does the state have a role to play?</b>
<i>Yes (Public health and safety; system reliability)</i>
<b>2. Can the state advance the public interest effectively through the siting of individual energy facilities?</b>
<i>Yes</i>
<b>3. Can objective guidelines by rule make clear what is expected of a siting applicant with precision and specificity?</b>
<i>Yes and no</i>
<b>4. Can the state advance the public interest more effectively by means other than siting of individual energy facilities?</b>
<i>No</i>
<b>5. Identify those other means with precision and specificity.</b>
<i>Not applicable</i>

## STANDARDS WORKSHEET

**STANDARD:**      **Protected areas, including monuments, wilderness areas, wildlife refuges, and scenic waterways**

<b>1. Is there a public interest that should be addressed by state policy? Does the state have a role to play?</b>
<i>Yes</i>
<b>2. Can the state advance the public interest effectively through the siting of individual energy facilities?</b>
<i>Yes</i>
<b>3. Can objective guidelines by rule make clear what is expected of a siting applicant with precision and specificity?</b>
<i>Yes</i>
<b>4. Can the state advance the public interest more effectively by means other than siting of individual energy facilities?</b>
<i>No</i>
<b>5. Identify those other means with precision and specificity.</b>
<i>Not applicable</i>

## STANDARDS WORKSHEET

**STANDARD:** Financial ability and qualifications of the applicant

<b>1. Is there a public interest that should be addressed by state policy? Does the state have a role to play?</b>
<i>Yes (Protect the public from being left holding the bag)</i>
<b>2. Can the state advance the public interest effectively through the siting of individual energy facilities?</b>
<i>Yes (Bond or reclamation fund)</i>
<b>3. Can objective guidelines by rule make clear what is expected of a siting applicant with precision and specificity?</b>
<i>Yes</i>
<b>4. Can the state advance the public interest more effectively by means other than siting of individual energy facilities?</b>
<i>No</i>
<b>5. Identify those other means with precision and specificity.</b>
<i>Not applicable</i>

## STANDARDS WORKSHEET

**STANDARD:** Fish and wildlife, including threatened and endangered fish, wildlife and plant species

<b>1. Is there a public interest that should be addressed by state policy? Does the state have a role to play?</b>
<i>Yes</i>
<b>2. Can the state advance the public interest effectively through the siting of individual energy facilities?</b>
<i>Yes</i>
<b>3. Can objective guidelines by rule make clear what is expected of a siting applicant with precision and specificity?</b>
<i>Yes</i>
<b>4. Can the state advance the public interest more effectively by means other than siting of individual energy facilities?</b>
<i>Yes</i>
<b>5. Identify those other means with precision and specificity.</b>
<i>Not applicable</i>

## STANDARDS WORKSHEET

**STANDARD:**      **Historic, cultural and archaeological resources**

<b>1. Is there a public interest that should be addressed by state policy? Does the state have a role to play?</b>
<i>Yes</i>
<b>2. Can the state advance the public interest effectively through the siting of individual energy facilities?</b>
<i>Yes</i>
<b>3. Can objective guidelines by rule make clear what is expected of a siting applicant with precision and specificity?</b>
<i>Yes</i>
<b>4. Can the state advance the public interest more effectively by means other than siting of individual energy facilities?</b>
<i>No</i>
<b>5. Identify those other means with precision and specificity.</b>
<i>Not applicable</i>

## STANDARDS WORKSHEET

**STANDARD:**        **Public health and safety**

<b>1. Is there a public interest that should be addressed by state policy? Does the state have a role to play?</b>
<b>Yes</b>
<b>2. Can the state advance the public interest effectively through the siting of individual energy facilities?</b>
<b>Yes</b>
<b>3. Can objective guidelines by rule make clear what is expected of a siting applicant with precision and specificity?</b>
<b>Yes (Should be more general than specific within known boundaries and more specific as to particular standards, e.g., EMF)</b>
<b>4. Can the state advance the public interest more effectively by means other than siting of individual energy facilities?</b>
<b>No</b>
<b>5. Identify those other means with precision and specificity.</b>
<b>Not applicable</b>

## STANDARDS WORKSHEET

**STANDARD:** Nuclear waste accumulation, storage, disposal and transportation

<b>1. Is there a public interest that should be addressed by state policy? Does the state have a role to play?</b>
<i>Yes</i>
<b>2. Can the state advance the public interest effectively through the siting of individual energy facilities?</b>
<i>Yes</i>
<b>3. Can objective guidelines by rule make clear what is expected of a siting applicant with precision and specificity?</b>
<i>Yes</i>
<b>4. Can the state advance the public interest more effectively by means other than siting of individual energy facilities?</b>
<i>No</i>
<b>5. Identify those other means with precision and specificity.</b>
<i>Not applicable</i>

## STANDARDS WORKSHEET

**STANDARD:**        Recreation, scenic and aesthetic values

<b>1. Is there a public interest that should be addressed by state policy? Does the state have a role to play?</b>
<i>Yes</i>
<b>2. Can the state advance the public interest effectively through the siting of individual energy facilities?</b>
<i>Yes</i>
<b>3. Can objective guidelines by rule make clear what is expected of a siting applicant with precision and specificity?</b>
<i>Yes</i>
<b>4. Can the state advance the public interest more effectively by means other than siting of individual energy facilities?</b>
<i>No</i>
<b>5. Identify those other means with precision and specificity.</b>
<i>Not applicable</i>

## STANDARDS WORKSHEET

**STANDARD:** Ability of communities in affected areas to provide sewers and sewage treatment, water, storm water drainage, solid waste management, housing, traffic safety, police and fire protection, health care and schools

<b>1. Is there a public interest that should be addressed by state policy? Does the state have a role to play?</b>
<i>Yes</i>
<b>2. Can the state advance the public interest effectively through the siting of individual energy facilities?</b>
<i>Yes</i>
<b>3. Can objective guidelines by rule make clear what is expected of a siting applicant with precision and specificity?</b>
<i>Yes</i>
<b>4. Can the state advance the public interest more effectively by means other than siting of individual energy facilities?</b>
<i>No</i>
<b>5. Identify those other means with precision and specificity.</b>
<i>Not applicable</i>

## STANDARDS WORKSHEET

**STANDARD:** Compliance with Statewide Planning Goals adopted by LCDC

<b>1. Is there a public interest that should be addressed by state policy? Does the state have a role to play?</b>
<i>Yes</i>
<b>2. Can the state advance the public interest effectively through the siting of individual energy facilities?</b>
<i>Yes</i>
<b>3. Can objective guidelines by rule make clear what is expected of a siting applicant with precision and specificity?</b>
<i>Yes</i>
<b>4. Can the state advance the public interest more effectively by means other than siting of individual energy facilities?</b>
<i>No</i>
<b>5. Identify those other means with precision and specificity.</b>
<i>Not applicable</i>

## STANDARDS WORKSHEET

**STANDARD:**      Soil protection

<b>1. Is there a public interest that should be addressed by state policy? Does the state have a role to play?</b>
<i>Yes</i>
<b>2. Can the state advance the public interest effectively through the siting of individual energy facilities?</b>
<i>Yes</i>
<b>3. Can objective guidelines by rule make clear what is expected of a siting applicant with precision and specificity?</b>
<i>Yes</i>
<b>4. Can the state advance the public interest more effectively by means other than siting of individual energy facilities?</b>
<i>No</i>
<b>5. Identify those other means with precision and specificity.</b>
<i>Not applicable</i>

## STANDARDS WORKSHEET

STANDARD:        Noise

<b>1. Is there a public interest that should be addressed by state policy? Does the state have a role to play?</b>
<i>Yes</i>
<b>2. Can the state advance the public interest effectively through the siting of individual energy facilities?</b>
<i>Yes</i>
<b>3. Can objective guidelines by rule make clear what is expected of a siting applicant with precision and specificity?</b>
<i>Yes; prepared by ODEQ and enforced by EFSC</i>
<b>4. Can the state advance the public interest more effectively by means other than siting of individual energy facilities?</b>
<i>No</i>
<b>5. Identify those other means with precision and specificity.</b>
<i>Not applicable</i>

## STANDARDS WORKSHEET

STANDARD:      Wetlands

<b>1. Is there a public interest that should be addressed by state policy? Does the state have a role to play?</b>
<i>Yes</i>
<b>2. Can the state advance the public interest effectively through the siting of individual energy facilities?</b>
<i>Yes</i>
<b>3. Can objective guidelines by rule make clear what is expected of a siting applicant with precision and specificity?</b>
<i>Yes; prepared by Division of State Lands and U. S. Corps of Engineers and enforced by EFSC</i>
<b>4. Can the state advance the public interest more effectively by means other than siting of individual energy facilities?</b>
<i>No</i>
<b>5. Identify those other means with precision and specificity.</b>
<i>Not applicable</i>

## STANDARDS WORKSHEET

STANDARD: Facility Retirement

<b>1. Is there a public interest that should be addressed by state policy? Does the state have a role to play?</b>
<i>Yes</i>
<b>2. Can the state advance the public interest effectively through the siting of individual energy facilities?</b>
<i>Yes</i>
<b>3. Can objective guidelines by rule make clear what is expected of a siting applicant with precision and specificity?</b>
<i>Yes</i>
<b>4. Can the state advance the public interest more effectively by means other than siting of individual energy facilities?</b>
<i>No</i>
<b>5. Identify those other means with precision and specificity.</b>
<i>Not applicable</i>

## STANDARDS WORKSHEET

**STANDARD:**      **Climate Change**

<b>1. Is there a public interest that should be addressed by state policy? Does the state have a role to play?</b>
<b>Yes</b>
<b>2. Can the state advance the public interest effectively through the siting of individual energy facilities?</b>
<b>Yes</b> <i>Thermal generating facilities are large contributors and we must start somewhere</i>
<b>3. Can objective guidelines by rule make clear what is expected of a siting applicant with precision and specificity?</b>
<b>Yes</b>
<b>4. Can the state advance the public interest more effectively by means other than siting of individual energy facilities?</b>
<b>Yes</b>
<b>5. Identify those other means with precision and specificity.</b>
<ul style="list-style-type: none"><li>◆ Address carbon dioxide emissions from all sources, not just energy facilities</li><li>◆ Memorialize Congress and the President and appeal for federal or international action</li></ul>
