**RULE SUMMARY**

OSLAB proposes comprehensive updates to its continuing education (CE) rules to increase clarity and address lessons learned in 10 years of program implementation. The rules will also be amended to provide the Board with more discretion about options for addressing registrant non-compliance with CE requirements. The Board is not proposing changes to the basic requirements for registrant completion of CE or the

auditing of registrants.

The Agency requests public comment on whether other options should be considered for achieving the rule's substantive goals while reducing negative economic impact of the rule on business.
