## Health Information Exchange (HIE): A Strategic Plan for Oregon

- “To improve the quality of our health care while lowering its cost, we will make the immediate investments necessary to ensure that within five years, all of America’s medical records are computerized ... It just won’t save billions of dollars and thousands of jobs – it will save lives.” (January 5, 2009)

**Obama's big idea: Digital health records**

President-elect Barack Obama, as part of his effort to revive the economy, is proposing a massive effort to modernize health care by making all health records standardized and electronic. The government estimates about 212,000 jobs could be created by this program, CNNMoney reports. [full story](#)

## Timeline for Completion of HIE Plans

# Stakeholder Engagement – An Early Success

- **Stakeholder meetings**

- “Great information, clearly presented.”
- “Sincere attempt to answer the questions of the audience and enable further dialogue.”
- “Plenty of advanced notice & communication, interactive format, ease of connecting & logging in to participate.”
- “It was a great opportunity to be brought up to date on the work without having to travel.”

- **Strategic Workgroup**

- “I read through every one of the 85 pages single-spaced, and I'm totally impressed. In general I don't have anything to add, I think it captured all the details of everything we've talked about and I'm really impressed with the hard work of the group that put this together. Considering how many meetings and how much discussion we've had, all the flavors and all the subtleties are in there. Great job to the team.” – **Dick Gibson, MD, HIIAC Chair**

- **HITOC**

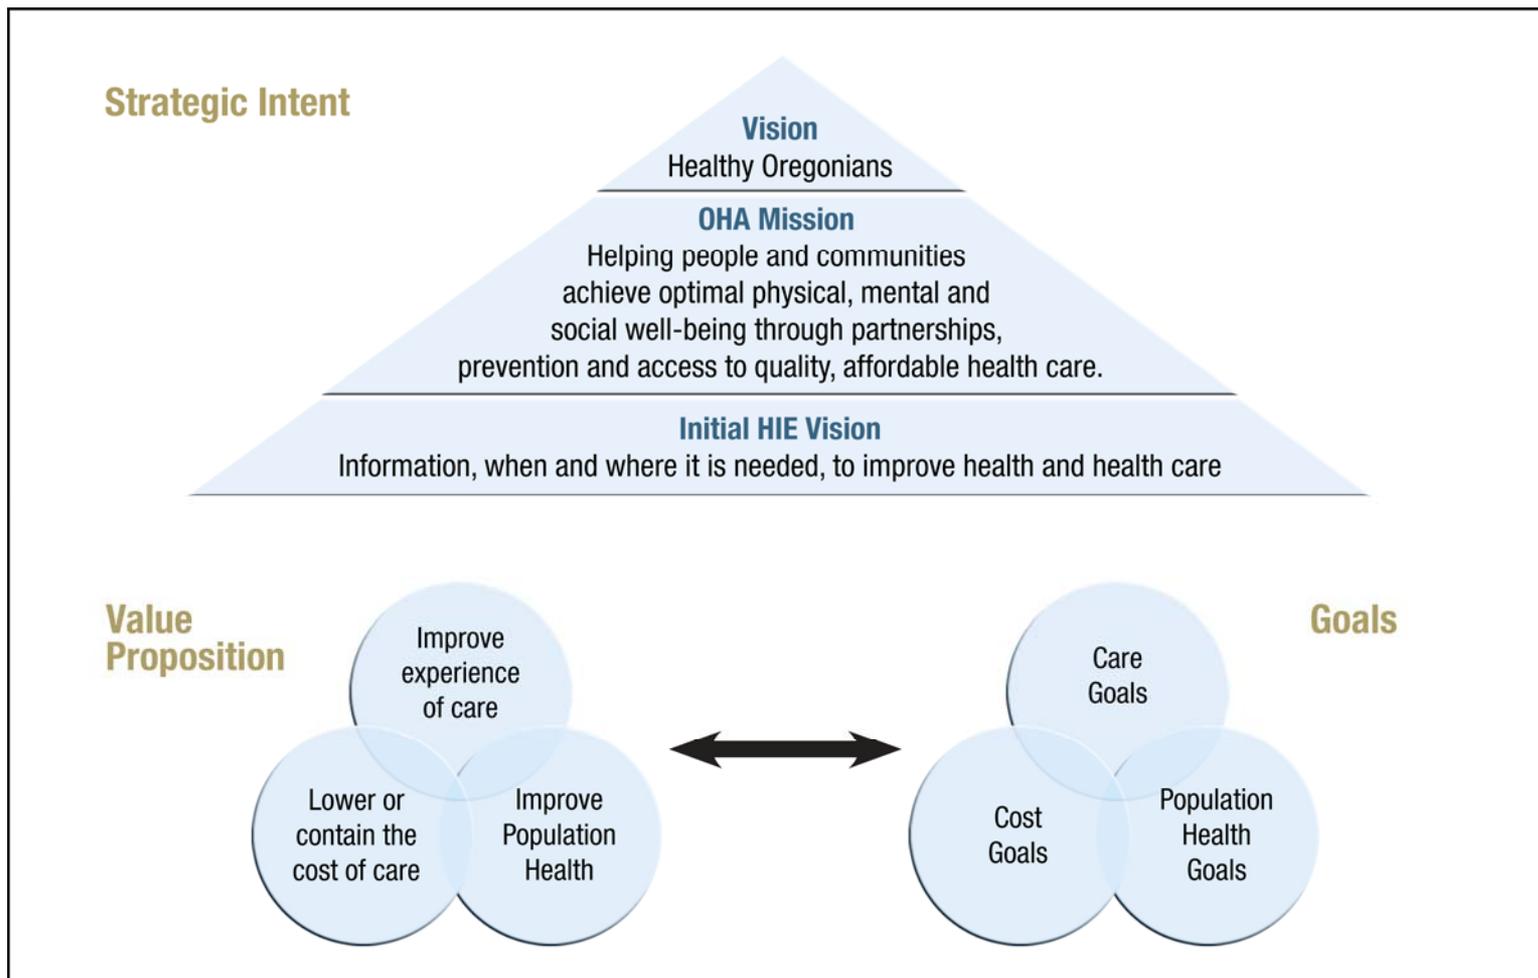

- “I'm thrilled not only with the composition of the workgroup and the work they accomplished, but also the apparent humility and mutual respect with which they conducted themselves. It makes me proud to be an Oregonian. The workgroup members, staff, and consultants all deserve our praise and thanks.” – **Greg Fraser, MD MBI**
