Re: DMAP reimbursement for procedure code T1015

As discussed in this month's CCO Advisory Committee meeting, DMAP plans to implement a fee-for-service rate increase for procedure code T1015 (All-Inclusive Family Planning Visit) on June 1, 2014. You can review the letters sent about this increase on the [OHP Announcements page](#).

DMAP will adjust July 1, 2014 capitation rates to correspond to this rate increase.

Services covered under T1015

This code is only used by Family Planning Clinics to bill for visits that provide the full complement of family planning services as described in Oregon Administrative Rule [410-130-0587 - Family Planning Clinic Services](#). This includes:

- Annual family planning exams;
- Family planning counseling;
- Insertions and removals of implants and IUDs;
- Diaphragm fittings;
- Dispensing of contraceptive supplies and contraceptive medications;
- Contraceptive injections.

T1015 does not include:

- Family planning supplies and medications;
- Laboratory tests;
- Encounters that are not contraceptive in nature or not provided by the Family Planning Clinic.

Questions?

If you have questions about how this increase affects Family Planning Clinic encounters you are billed between June 1 and July 1, 2014, please contact your DMAP Account Representative.

Thank you for your continuing support of the Oregon Health Plan.
