Medicaid Policy and Planning Section, DMAP

Subject: Fee-for-service rate increase for procedure code T1015 effective June 1, 2014

Effective June 1, 2014, the Division of Medical Assistance Programs (DMAP) will increase the fee-for-service rate for procedure code T1015 (All-Inclusive Clinic Visit) from \$78 to \$135.

There are no changes or new requirements for appropriate use of this code. DMAP will post the new rate with the May 2014 Fee-for-Service Fee Schedule on the [OHP Fee Schedule page](#).

Why is this happening?

Oregon Administrative Rule (OAR) [410-130-0587 - Family Planning Clinics](#) allows Family Planning Clinics (provider type 22) to bill using code T1015 for encounters where the primary purpose of the visit is contraceptive in nature.

DMAP has increased the rate for this code to better reflect the average cost of a visit billed under this code by Family Planning Clinics. Since this code is for an all-inclusive rate, it is our expectation that Family Planning Clinics use this code to bill for visits that provide the full complement of family planning services.

What should you do?

Make sure to bill according to OAR 410-130-0585 (Family Planning Services) and OAR 410-130-0587, based on whom you report as the rendering provider for each service billed.

- **When the clinic is the rendering provider**, only use T1015. Services that are contraceptive in nature are all included in T1015. Family planning supplies, medications, lab tests; and encounters that are not contraceptive in nature may be billed separately on the same date of service with T1015.
- **When a physician or other licensed professional is the rendering provider**, use the most appropriate procedure code for the service, followed by modifier –FP.

Questions?

If you have any questions about this announcement, contact Medical-Surgical Policy Analyst Nathan Roberts at 503-945-6530 (Salem) or nathan.w.roberts@state.or.us.

Thank you for your continued support of the Oregon Health Plan and the services you provide to our members.
