

**Date:** July 7, 2014

**To:** County Community Mental Health Programs  
Outpatient and residential substance use disorder treatment providers

**From:** Don Ross, Manager  
Medicaid Policy and Planning Section, DMAP

**Subject:** Fee-for-service reprocessing of substance use disorder claims planned for July 18, 2014

On July 18, 2014, the Division of Medical Assistance Programs (DMAP) plans to reprocess substance use disorder (SUD) claims that were paid on or after **July 1, 2013**, through **May 31, 2014**.

**This activity will not change any payments already made to you.** We are writing to let you know why this activity is happening and how this will read on your paper remittance advice from DMAP.

### Why is this happening?

Effective July 1, 2013, DMAP, not the Addictions and Mental Health Division, pays for SUD claims. We updated our system to reflect this change starting June 1, 2014. To show the correct funding in our records, we now need to reprocess SUD claims paid between these dates.

### What should you do?

Please monitor authorizations and provider payment accounts for errors or omissions.

### What you will see on the paper remittance advice

**The Claim Adjustments section** will list the affected claims by original Internal Claim Number (ICN).

- Each ICN will have an adjustment ICN (beginning with “52”) to indicate reprocessing activity.
- The “Detail EOBs” will list Explanation of Benefits (EOB) code *EOB 0082 - Disregard this adjustment which was processed to correct our records only, no action is required on your part.*

### What you will see on the electronic remittance advice (ERA) or Provider Web Portal

In both the ERA and Provider Web Portal, the reason for the reprocessing will be *Adjustment Reason Code 223 - Adjustment code for mandated federal, state or local law/regulation that is not already covered by another code and is mandated before a new code can be created.*
