Hot Sparks of
Capitol Fire

After many unexcused years
for which the legislature
did not confirm what
remains of the old Oregon
State Capitol building,
which was destroyed by
fire in 1933, the legislature
has finally passed a
bill which will allow the
state to purchase the
site of the old building
and to build a new
capitol building on the
same site.

The bill, which was
introduced by Representative
W. H. C. Brown, of
Clatsop county, provides
that the state shall
purchase the site of the
old building and shall
be authorized to build
a new capitol building
on the same site.

The bill also provides
that the state shall
be authorized to
purchase the site of the
old building and shall
be authorized to build
a new capitol building
on the same site.

The bill also provides
that the state shall
be authorized to
purchase the site of the
old building and shall
be authorized to build
a new capitol building
on the same site.

The bill also provides
that the state shall
be authorized to
purchase the site of the
old building and shall
be authorized to build
a new capitol building
on the same site.

The bill also provides
that the state shall
be authorized to
purchase the site of the
old building and shall
be authorized to build
a new capitol building
on the same site.

The bill also provides
that the state shall
be authorized to
purchase the site of the
old building and shall
be authorized to build
a new capitol building
on the same site.

The bill also provides
that the state shall
be authorized to
purchase the site of the
old building and shall
be authorized to build
a new capitol building
on the same site.

The bill also provides
that the state shall
be authorized to
purchase the site of the
old building and shall
be authorized to build
a new capitol building
on the same site.

The bill also provides
that the state shall
be authorized to

AFTER DOME FELL; STATEHOUSE ABLAZE

Remains of dome of Oregon's
state capitol building here early last night
following blackened and empty walls pointing skyward this
morning.

The fire took toll of one life, of building equipment
valued at over \$100,000 and of a large quantity of
records, many of which can never be replaced.

A falling cornice fell crushed Floyd McMillen, shortly
after 11 o'clock. No other fatalities or serious injuries were
known.

What caused the spark that set off the conflagration
remained a mystery. The usual causes of faulty wiring,
oil rags or smoldering cigarette were not found. The dense
smoke which filled the dome was the heaviest since it began
to burn.

At 4:43 a. m. a stream at the
Arch street corner threw
flames against upper story
of the dome. The fire
burned for nearly two
hours before it was
extinguished.

FIRE DESTROYS STATE CAPITOL

One Fireman Killed; Large Crowd Sees Historic Dome Collapse

(Continued From Page 1)

It was some as a great chimney with a great fire burning in it. The dome collapsed, because a fire started in all directions.

At 11:55 a. m. a tremendous explosion of flame then ground its way, reaching the top of the dome. The fire and third floor laid, covering the dome with a thick layer of flames. It could only extinguish the explosion in the fire, the power station and the dome.

The fire showed off in the east side of the dome. The fire was very small flames rising up on the west side, where the dome was very much damaged. The dome was very much damaged. The dome was very much damaged.
