GOT SMOKE ALARMS?

IF YOU RENT
AND do not have working smoke alarms, contact your landlord or property manager.

FOR RENT

HOW OLD IS YOUR ALARM?
SMOKE ALARMS that are **10** years old or older should be *replaced*.

1/2 OF HOME FIRE DEATHS happened in homes without a WORKING smoke alarm.

PROPERLY INSTALLED & MAINTAINED **SMOKE ALARMS** **SAVE LIVES** AND PROTECT AGAINST INJURY AND LOSS DUE TO FIRE. FOR INCREASED PROTECTION, **INSTALL A SMOKE ALARM** ON EVERY LEVEL OF YOUR HOME, OUTSIDE **SLEEPING AREAS** (HALLWAY), **AND IN EACH BEDROOM.**

DOES YOUR ALARM WORK?
TEST your smoke alarm **ONCE A MONTH** using the **TEST BUTTON.**

SMOKE FROM A FIRE
SPREADS FAST AND IS DEADLY.
Working smoke alarms give early warning so you can get outside *quickly* and *escape* to your meeting place.

A common reason for a non-functioning smoke alarm is that people disable it after a false alarm.
If a smoke alarm alerts (or sounds) and there is not a fire (i.e., burnt toast), **PUSH THE HUSH BUTTON.**
DO NOT REMOVE THE BATTERY. Open the windows or doors to clear out the smoke.
