

Office of State Fire Marshal  
4760 Portland Road NE  
Salem, OR 97305-1760

The Office of State Fire Marshal is taking this opportunity to provide information about the 2007 Oregon Fire Code requirements adopted and effective April 1, 2007. This three part code addresses personal safety training measures regarding **discharging static electricity** before and during the process of dispensing gasoline. For your safety - please follow the procedures listed below:

- 1- Discharge static electricity before fueling by touching a metal surface away from the nozzle.
- 2- To prevent static charge, do not reenter your vehicle while gasoline is pumping.
- 3- If a fire starts, do not remove the nozzle, use the emergency fuel shut off.
