RULE SUMMARY

This rule outlines the procedures agencies who register sex offenders will use to complete a registration and forward that information to the Oregon State Police.

The rule provides procedures for completing the registrations online and for transmission of information to the Oregon State Police.

The rule states that the Oregon State Police will update sex offender registry records and keep them electronically. The Oregon State Police will no longer keep paper records.

The Agency requests public comment on whether other options should be considered for achieving the rule's substantive goals while reducing negative economic impact of the rule on business.
