Agenda Item	Desired Outcome
Welcome	Introductions
Review of Previous Meeting	❖ Review and approve draft minutes from 10.13.2015 meeting
Committee Discussions	<ul style="list-style-type: none"> ❖ Review Rules <ul style="list-style-type: none"> ▪ The Committee discussed the merits of having the required educational training be ACPE (Accreditation Council for Pharmacy Education) approved. ▪ It allows for credibility and sets standards for consistency in CE criteria. ❖ Review Re-Evaluation Questionnaire <ul style="list-style-type: none"> ▪ Regarding progesterone, there is a difference between the pharmacologic activity (or drug potency) and actual clinical prescribing determination. ▪ The training will be addressing the distinctions and this appendix item must be consistent with and reflective of information taught in the training. ❖ Overview of Board’s Plan and Timeline <ul style="list-style-type: none"> ▪ The Board will be reviewing and potentially adopting Temporary Rules on November 4, 2015. This will include a review and approval of the “Tool-Kit” resources, to allow interested pharmacists and pharmacies to prepare for the January 1, 2016 operative date. ▪ The Board also plans to review and approve the training program that OSU College of Pharmacy has been developing. The committee requests the opportunity to view the training program at a future time. ❖ Communications and Outreach Plan <ul style="list-style-type: none"> ▪ Dr. Maria Rodriguez has worked with the OHSU IRB to develop a survey. The Committee believes this will be a valuable way to gather data about pharmacist’s awareness and confidence related to this new law. ▪ Tool-kit components are being finished up. The OHA will provide a list of

	<p>family planning and county health clinics, categorized by area of the state. Additionally the OHA may provide a resource “one-pager” about the Affordable Care Act/TitleX directives related to contraceptive care. Links to relevant sources given to our public will also reside in the ToolKit.</p> <ul style="list-style-type: none"> ▪ The group discussed outreach to patients and all licensees. The OMB and BOP will utilize their newsletters and websites to provide info to licensees. The OHA can discuss this program with their partnerships to spread the word. The more outreach and specific info that we can provide, the better the understanding and support for pharmacist prescribing of hormonal contraceptives. ▪ The group discussed the importance of “cash” pay versus the billing of insurers and understands this is not the work of the BOP, but is a critical element to actual participation and implementation by pharmacists and pharmacies. If and when the Oregon Pharmacy Association can develop a reference for billing and reimbursement, it can be added to the “ToolKit”.
<p>Good of the Order</p>	<ul style="list-style-type: none"> ❖ Next steps <ul style="list-style-type: none"> ▪ Appointment calendar invitations will be sent regarding future Committee meetings, once best availability is determined via “Doodle Poll”.
