Agenda Item	Desired Outcome
Welcome	Introductions
Review of Brainstorming Session 7.30.2015	<ul style="list-style-type: none"> ❖ We had a brief review of the following discussion items: <ul style="list-style-type: none"> ▪ Components of HB2879 ▪ Committee’s Timeline Overview ▪ Brainstorming and Conversations ❖ Reviewed and approved draft meeting notes from 7.30.15 meeting
HB 2879 Protocol and Decision-Making Algorithms	<ul style="list-style-type: none"> ❖ Homework: Review draft protocol and algorithm template <p>Background: The US Selected Practice Recommendations for Contraceptive Use, 2013 (http://www.cdc.gov/mmwr/preview/mmwrhtml/rr6205a1.htm?s_cid=rr6205a1_w) outline “the recommendations intended to help health-care providers address issues related to use of contraceptives, such as how to help a woman initiate use of a contraceptive method, which examinations and tests are needed before initiating use of a contraceptive method, what regular follow-up is needed, and how to address problems that often arise during use, including missed pills and side effects such as unscheduled bleeding.” It is intended to be used in conjunction with the US MEC. Together they provide the guidance for the Advisory Committee’s establishment of the standard procedures for HB 2879 (protocol with algorithms for decision-making).</p> <p>The committee reviewed the draft protocol and algorithm, step by step, to address the following details:</p> <ul style="list-style-type: none"> ▪ “Referral” Points – Pregnancy, contraindicating health conditions, contraindicating medications, BP > 140/90 ▪ Pregnancy assessment – US SPR “Excluding Pregnancy Checklist Tool” to be used for possibility of pregnancy. ▪ Blood Pressure – Important component to all clinicians polled.

	<ul style="list-style-type: none"> ▪ Initiation Strategies (initial/change in treatment) & required counseling points, including “Quick Start” ▪ Dispensing quantities. The group discussed the rationale for various quantities for initial and refill dispensing and determined that there are a variety of scenarios (cost, pharmacy inventory, concern regarding side effects, etc) for consideration. The group also discussed the “mobility” of the prescription and will continue to discuss “transfers” of prescriptions initiated by pharmacists. <p>❖ The updated draft is attached:</p> <div style="text-align: center;">  <p>2879 Basic Algorithm - Updated 9.3.15.xls</p> </div> <p>❖ The Advisory Committee discussed the Follow-Up Questionnaire. The updated draft is attached:</p> <div style="text-align: center;">  <p>9.1.15 Follow Up Questionnaire...</p> </div>
Good of the Order	<p>❖ Next steps</p> <ul style="list-style-type: none"> ▪ Begin conceptualizing Rules – to be discussed at 9.8.15 meeting ▪ Begin developing Appendices for participating pharmacists and pharmacies – ongoing discussions will address specific appendices for the Pharmacist’s “Tool Kit”. To include a “referral form”. ▪ Discuss statute intent regarding “prescribe and dispense”
