RULE SUMMARY

Amendments in Division 006 add a definition for "Quality Assurance Plan" and establish a new rule number for "Unprofessional Conduct".

Amendments in Division 025 change the annual Certified Oregon Pharmacy Technician license to a biennial license that expires June 30th in even numbered years. Other changes are primarily housekeeping related matters or changes that correspond with biennial licensure. Changes also clarify and update the Pharmacy Technician rules.

Amendments in Division 041 are minor housekeeping changes which include an updated rule reference related to Remote Distribution Facilities.

Rules in Division 043 Practitioner Dispensing rules repeal the existing County Health Clinic and Family Planning Clinic Drug Outlet rules and establish a new section of rules to combine these two licenses into one category that will be called a Community Health Clinic Drug Outlet. A facility must register when medication dispensing is performed by a Registered Nurse (RN). The new rules provide minimum requirements of operation and define requirements for personnel, policies, and procedures, security, drug acquisition, storage of drugs, labeling, dispensing and drug delivery, disposal of drugs and recordkeeping. The new rules go into effect 7/1/16; however, facilities currently registered with the

Board under the former license categories will be issued a new Community Health Clinic Drug Outlet registration upon renewal in 2017.

Amendments in Division 110 correspond with the transition to biennial licensure for Certified Oregon Pharmacy Technicians and make other minor corrections as a result of changes to various rules.
